## **A manifestation Determination Considers:**

1. If the conduct in question was *caused by*, or had a *direct and substantial relationship to*, the child's *disability*.
2. If the conduct in question was the *direct result of the school district's failure to implement the IEP*.
3. If either is applicable, the conduct shall be determined to be a manifestation of the child's disability.

## Exceptional Student Education & PROMISE

- If conduct **IS** a manifestation of the disability:
  - Review Functional Behavior Assessment; Positive Behavior Intervention Plan and Individualized Education Plan for any needed support.
  - Return the student to the last agreed upon placement **OR** in cases when a change of placement is being considered for disciplinary reasons (such as for an expellable offense), the students placement cannot be changed unless the parent and school district agree.
- If conduct **IS NOT** a manifestation of the disability:
  - Apply relevant disciplinary procedures in the same manner and for the same duration as to students without disabilities. **However**, the student will continue to have the provision of FAPE.
  - IEP/504 Team determines extent to which services are needed to enable the student to continue to participate in the general ed. curriculum and progress toward meeting IEP/504 goals while receiving FAPE.

# Overview of PROMISE Incidents

## SY 2015-2016

- Fighting, Drug Use/Possession/Under the Influence and Disruption of Campus (Major) represent the highest incidents
  - Additional resources are needed to support schools
- High School students commit the most incidents, however, the greatest rate of recurrence is at Middle School
- Fewer students committed a subsequent incident in SY 2015-16 than in SY 2014-15, resulting in 87.7% of students not committing another incident
- Only 2.5% of students committed 3 or more incidents, which represents a reduction of student reoccurrences

# Overview of Overrepresentation in PROMISE Incidents

- While we continue to see a decrease in Out-of-School Suspensions, Expulsions and School-Related Arrests, Black students continue to be overrepresented at a rate 3 times higher than all other ethnic groups.
- Data reflects overrepresentation of Males and students who are identified as ESE, ELL & FRL compared to their counterparts.

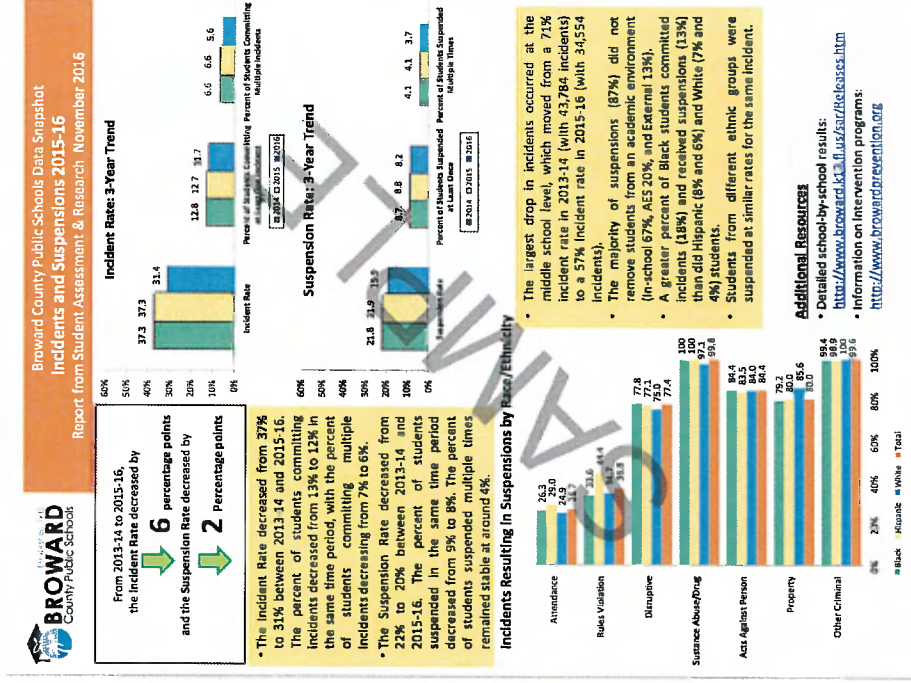

# Recommendations/Next Steps for Addressing Discipline Disparities

- Professional Learning Opportunities
  - Culturally Responsive and Implicit Bias
  - Climate and School-wide Positive Behavior Intervention Planning
  - Restorative Justice
- Social Justice Initiative
- Research Consultative Support
  - South Florida Education Research Alliance
  - Equity Project at Indiana University
- Ongoing School Board Policy Review and Revisions
- Ongoing Guidance to School Leaders
- Overrepresentation/Disparities Plan Incorporated into the School Improvement Plan
- Mentoring Opportunities
- Expanded interventions/collaboration with community partners
