

THREAT ASSESSMENT POLICY

The School Board of Broward County (SBBC), Florida is committed to protecting its students, employees, and members of the community. It is essential that Districtwide violence prevention be in place to foster a learning environment that promotes a culture of safety, respect, trust, and social/emotional support, while also protecting students and staff from conduct that poses an actual or perceived threat to self or others. The threat assessment policy shall be interpreted and applied consistently with all applicable state and federal laws, and The Board's collective-bargaining agreements. The policy was developed in accordance with the legislation enacted by the State of Florida (Marjory Stoneman Douglas High School Public Safety Act, SB 7026), established research, and recognized standards of practice regarding threat assessment and management in school settings.

action to protect identified or identifiable target(s); and may also exhibit behavior that requires intervention.

- E. A **threat assessment team** shall include, pursuant to Florida statute, persons with expertise in counseling, instruction, school administration, principal, when available, and law enforcement. Persons with expertise in counseling include school counselors, school psychologists, school social workers, and family counselors. - F. Each threat assessment team must respond, within 24 hours when school is in session, to any report of a threat or any patterns of behavior that may pose a threat to self or others. If school is not in session, the school principal must immediately refer the matter to law enforcement for evaluation, and the threat assessment team must meet no later than the end of the first day school is back in session to consider the matter and ensure it is resolved. The team shall gather information regarding the specifics of the threat and/or behaviors that may pose a threat, including but not limited to: details of the incident or threat, witness statements, and relevant artifacts.

- G. When assessing a potential threat or concerning behavior, the threat assessment team must determine not only whether a threat has been made or communicated, but also if a person poses a danger to self or others or if they are potentially on a pathway to violence.
 - a. For students deemed a threat to self, the threat assessment team must ensure the student's immediate safety, then refer the student to the school-based suicide designee. The suicide designee will meet with the student and assess the severity of the risk following the Suicide Prevention Handbook guidelines.
 - b. If the threat assessment team determines that a student poses a threat to others, the team is responsible for assessing the level of threat by conducting student/parent interviews, reviewing all pertinent records, and following the district's threat assessment procedures.
 - c. The threat assessment team must coordinate resources to provide intervention to individuals whose behavior may pose a threat to the safety of school staff or students consistent with the model policies developed by the Office of Safe Schools.
 - d. The threat assessment team must plan for the implementation and monitoring of appropriate interventions in order to manage or mitigate the student's risk for engaging in violence and increasing the likelihood of positive outcomes.
 - e. Interventions should remain in place until the team assesses that the student is no longer in need of supports and does not pose a threat to self or others.
- H. Threat assessment teams shall follow established procedures for referrals to school-based, community, and/or health care providers for mental health services, evaluation, or treatment.
- I. All threat assessment outcomes and recommendations must be reported to the school principal. The school principal will sign/acknowledge that the threat assessment documentation is complete and will forward the signed/acknowledged assessment to their supervisor. In addition, upon a preliminary determination that a student poses a threat of violence or physical harm to self or others, the threat assessment team must immediately report its determination to school principal or his/her administrative designee. The principal or his/her administrative designee shall immediately attempt to notify the student's parent or legal guardian.
 - a. Nothing in this policy shall preclude school personnel from acting immediately to address an imminent threat. Where an immediate threat to life or physical safety exists, reports must result in an immediate notification to law enforcement.
 - b. Nothing in this policy shall preclude the threat assessment team from notifying the school principal, his/her administrative designee, or the Chief of any individual (other than a student) who poses a threat of violence or physical harm to self or others.
- J. If an immediate mental health or substance abuse crisis is suspected, school personnel shall follow policies to engage behavioral health crisis resources, including, but not limited to, mobile crisis teams and school resource officers, who have been trained in crisis intervention. These individuals shall provide emergency intervention and assessment, make recommendations, and refer the student for appropriate services. Threat assessment

teams shall contact other agencies involved with the student and any known service providers to share information and coordinate necessary follow up. Any information from education records disclosed during this process shall be done in accordance with The Family Educational Rights and Privacy Act (FERPA) (34 CFR 99.31(10), 99.36).

- L. All SBBC employees, volunteers, and contractors are required to report to school administration any expressed threat(s) or behavior(s) that may represent a threat to the community, school, or self.
- M. Regardless of threat assessment activities, disciplinary action and referral to law enforcement are to occur as required by law and school board policies.
- N. Upon a preliminary determination by the threat assessment team that an individual poses a threat, members of the threat assessment team may request and obtain criminal history record information.
 - a. No member of a threat assessment team shall re-disclose any criminal history record information or health information obtained or use any record of an individual beyond the purpose for which such disclosure was made to the threat assessment team.
 - b. The threat assessment team may *not* maintain the criminal history record or place it in the student's educational file.
- O. The threat assessment team must consult with law enforcement when a student exhibits a pattern of behavior, based upon previous acts, or the severity of an act, that would pose a threat to school safety.
- P. If a student commits more than one misdemeanor, that is known to the school, the threat assessment team must consult with law enforcement to determine if further action is warranted.
- Q. If a student is facing possible expulsion or suspension as a consequence of certain actions, the school should consider ways in which these can be safely enacted and identify resources that may assist the student during this time. In addition, a threat assessment team may use alternatives to expulsion or referral to law enforcement agencies unless the use of such alternatives will pose a threat to school safety.
- R. Threat assessment records are considered education records and shall be maintained and released in accordance with FERPA and state statute. The threat assessment, its determination, along with any interventions provided, will be recorded in the appropriate electronic data systems by the threat assessment team.
