

WEBVTT

1

00:00:05.910 --> 00:00:06.870

Greg Ross: But we have.

2

00:00:08.189 --> 00:00:23.430

Greg Ross: I thank you and we do have the items from the attorneys which we will get to in a moment, and on behalf of beam for clay Miller has already indicated, if you haven't heard that he's in Washington lobbying.

3

00:00:24.780 --> 00:00:25.590

Greg Ross: For the.

4

00:00:25.890 --> 00:00:26.220

Mary Lou Tighe: region.

5

00:00:26.790 --> 00:00:38.340

Greg Ross: If you will and coral reefs so glad he's doing the job out there, but we'll miss him today and, having said that may have a roll call, please.

6

00:00:39.840 --> 00:00:40.650

Mary Lou Tighe: To Ross.

7

00:00:41.250 --> 00:00:41.790

Greg Ross: I am here.

8

00:00:43.590 --> 00:00:46.110

Mary Lou Tighe: I share first excused Commissioner truly.

9

00:00:46.440 --> 00:00:46.770

here.

10

00:00:49.290 --> 00:00:50.280

Mary Lou Tighe: Commissioner glassman.

11

00:00:50.700 --> 00:00:51.840

Commissioner Steven Glassman: Good morning here.

12

00:00:53.010 --> 00:00:53.910

Mary Lou Tighe: Commissioner good.

13

00:00:55.350 --> 00:00:56.370

Tom Good: I am President, thank you.

14

00:00:57.030 --> 00:00:58.080

Mary Lou Tighe: To Mr McMahon.

15

00:01:03.030 --> 00:01:04.440

Mary Lou Tighe: Commission mayor Ryan.

16

00:01:05.580 --> 00:01:14.310

Michael Ryan: President, but I may have misunderstood with clay said I what I heard was that Commissioner for wanted to make a motion to pay.

17

00:01:14.550 --> 00:01:21.120

Michael Ryan: For all of this and I may have just maybe it was my speaker i'm sorry if I missed that I would second that.

18

00:01:22.710 --> 00:01:29.520

Commissioner Steven Glassman: i'll third that I think he was also saying that he was going to pay for tunnel on for the new river crossing as well, thank you.

19

00:01:30.300 --> 00:01:35.100

Greg Ross: Apparently, you get volland told to do a lot of things when you don't show it a meeting.

20

00:01:35.490 --> 00:01:37.140

Commissioner Steven Glassman: hey susie loose.

21

00:01:39.240 --> 00:01:39.750

Mary Lou Tighe: miss your.

22

00:01:40.050 --> 00:01:41.730

Greg Ross: sins in your roll call, please.

23

00:01:42.330 --> 00:01:43.350

Mary Lou Tighe: Commission medicine.

24

00:01:43.860 --> 00:01:47.910

Bob Mayersohn: i'm here and I and and I heard that nathaniel clips Berg said that.

25

00:01:48.930 --> 00:01:51.360

Bob Mayersohn: The county's going to pay for everything as well.

26

00:01:52.020 --> 00:01:59.190

Greg Ross: The men nathaniel's on board today, so he can counter that but go ahead, who else do we have on roll ball.

27

00:01:59.850 --> 00:02:00.900

Mary Lou Tighe: Commissioner heavy on it.

28

00:02:01.590 --> 00:02:02.100

Sabrina Javellana: i'm here.

29

00:02:02.610 --> 00:02:06.090

Mary Lou Tighe: And it's my understanding that Commissioner McMahon will not be able to be with us today.

30

00:02:06.900 --> 00:02:11.400

Greg Ross: Okay, very good, I appreciate it, and we did right moving forward.

31

00:02:11.790 --> 00:02:14.100

Mary Lou Tighe: And to have a client Mr chair.

32

00:02:14.520 --> 00:02:20.760

Greg Ross: I thank you i'm going to ask once again matt Haber you're on, I assume, let me just take a look.

33

00:02:21.840 --> 00:02:29.010

Greg Ross: i'm here but assumption, yes, then, if you would please do me a favor and put up the.

34

00:02:31.500 --> 00:02:38.700

Greg Ross: The last section, if you will, of what we need to discuss ah, there you go, thank you very much.

35

00:02:40.320 --> 00:02:45.480

Greg Ross: And I will ask Mike or Jamie if you would.

36

00:02:47.010 --> 00:03:01.470

Greg Ross: Can you give us just a little background on these two issues, because obviously they're very, very similar other than whether costs will be shared and, if so, how costs will be shared.

37

00:03:02.640 --> 00:03:05.430

Greg Ross: But Mike Jamie are you there.

38

00:03:05.640 --> 00:03:08.070

Jamie Cole: Yes, I am i'd be i'd be happy to do so here.

39

00:03:09.420 --> 00:03:10.050

Mary Lou Tighe: So.

40

00:03:10.410 --> 00:03:10.830

He.

41

00:03:12.210 --> 00:03:12.750

Jamie Cole: can take your.

42

00:03:13.140 --> 00:03:22.260

Greg Ross: Second Mike yeah Mike i'm gonna i'll have Jamie he timed in first, do you know the intro and then you can add anything if you wish.

43

00:03:22.350 --> 00:03:24.330

Michael Cirullo: i'm fine, I just want to make sure you know, I was here.

44

00:03:24.750 --> 00:03:25.920

Greg Ross: Oh yeah Okay, thank you.

45

00:03:26.340 --> 00:03:32.910

Mary Lou Tighe: Mr Chairman, not sure, but Kevin has his hand raised i'm not sure if it's pertinent to this or something else.

46

00:03:33.450 --> 00:03:35.040

Greg Ross: Okay Kevin.

47

00:03:38.850 --> 00:03:45.990

SWRS: Yes, good morning I just before we begin, I just want to make sure we frame the issue as when we last met with the solid waste working group.

48

00:03:46.470 --> 00:03:57.300

SWRS: The direction was to go for thing come up with a you know, to put some language in there, that will acknowledge a cost share upon the solution and.

49

00:03:57.720 --> 00:04:02.700

SWRS: that's you know so that's what we have these two divergent approaches and I know the council's will be.

50

00:04:03.570 --> 00:04:12.420

SWRS: explaining the two different versions here, but the whole goal here is that was acknowledged by the group we I think the turn pro rata we choose the last time.

51

00:04:12.990 --> 00:04:22.650

SWRS: But that that they wouldn't be a cost share on the dissolution and that was part of what the county needed, because if if if if memory serves correctly.

52

00:04:23.070 --> 00:04:35.130

SWRS: You know our preference was to have it in the IRA we understand and have you know relented to move into the master plan, but we want to make sure that the county is not the sole financial backstop to the plan so.

53

00:04:35.160 --> 00:04:42.000

Greg Ross: Well yeah well we'll get to all of that that's why I need an introduction as as for by Jamie who include everything.

54

00:04:42.210 --> 00:04:45.750

Michael Cirullo: Can I can I just address that real quick because Jamie wasn't at the last meeting.

55

00:04:45.990 --> 00:04:46.470

Greg Ross: Oh OK.

56

00:04:46.530 --> 00:04:59.070

Michael Cirullo: OK, and I didn't undertake the direction to be lets us that start with the assumption there's going to be cost saving and then go, I mean cost sharing go from there, I took the direction of.

57

00:04:59.430 --> 00:05:07.860

Michael Cirullo: It was a issue among the attorneys and some Members that have what would happen if the wind down broke the wind down broke down.

58

00:05:08.370 --> 00:05:18.120

Michael Cirullo: And so the county was going to propose something that they felt that they needed in order to in the iowa because we know that the details that kind of have to work out later.

59

00:05:18.600 --> 00:05:24.930

Michael Cirullo: And Jamie and I were tasked providing what we felt with the language every appropriate for the iowa today.

60

00:05:25.290 --> 00:05:40.260

Michael Cirullo: On that same point, so I don't want to make it look like what was proposed by Jamie and myself, was inconsistent with some specific direction of the working group we we I feel being at the last meeting that we provided you to two alternatives that were asked for.

61

00:05:40.710 --> 00:05:41.070

Michael Cirullo: And that was.

62

00:05:41.580 --> 00:05:44.100

Michael Cirullo: To clarify and i'll turn it over to Jamie to explain but.

63

00:05:44.520 --> 00:05:48.420

Greg Ross: I appreciate that Thank you Mike for the edification Jamie.

64

00:05:48.930 --> 00:05:58.290

Jamie Cole: I thank you mayor, so this issue you know I will was not at the last meeting um so I have the benefit of not being there.

65

00:05:58.710 --> 00:06:10.980

Jamie Cole: I will tell you that this is an issue that is going to cause some consternation among various cities and city attorneys and city managers, etc, because it basically is.

66

00:06:11.520 --> 00:06:24.540

Jamie Cole: Saying that cities would be taking on a financial responsibility that they currently do not have and don't have um so the way that the county has this word.

67

00:06:25.020 --> 00:06:30.390

Jamie Cole: Is you know if there's a wind wind down at the end that.

68

00:06:31.230 --> 00:06:37.770

Jamie Cole: By saying how the cost of capital expansion for county own facility should be divided among parties pro rata.

69

00:06:38.040 --> 00:06:50.010

Jamie Cole: So it's assuming that there's going to be a capital expansion it's assuming that the costs are going to be paid for basically by the cities, because pro rata means.

70

00:06:50.970 --> 00:06:58.320

Jamie Cole: The cities, because the cities are basically whether you're pro rata by population or bro projected usage by which is tonnage.

71

00:06:58.710 --> 00:07:08.490

Jamie Cole: Basically it's saying that the cities, would be paying for it, so the cities, would be agreeing that they will have in the master plan of operations.

72

00:07:08.730 --> 00:07:16.290

Jamie Cole: A provision that requires them to pay for capital expansions, which is an obligation that they currently do not have.

73

00:07:16.800 --> 00:07:30.600

Jamie Cole: The idea of not putting it in the La and putting it in the master planner operations was so that that decision would not be made now, it appeared pretty clear from conversations with between the city.

74

00:07:31.350 --> 00:07:40.320

Jamie Cole: And the county attorney's that there is a disagreement as to whether this should be done or not, that we're not really ready to address.

75

00:07:41.250 --> 00:07:54.660

Jamie Cole: Because we don't know exactly what the authority is going to be doing so, the idea was to rather than put it in the La that the cost would be of expansion would be done Parada that that decision would be put off.

76

00:07:55.140 --> 00:08:02.730

Jamie Cole: Until we do the master plan of operations, because if you recall empty when we do the masculine of operations any city.

77

00:08:03.600 --> 00:08:16.380

Jamie Cole: That doesn't go along with the master plan of operations can opt out, so this is an issue that would be dealt with over the next two years, by putting the language, the county is proposing into the agreement.

78

00:08:16.920 --> 00:08:24.300

Jamie Cole: It is pre supposing the answer which will mean that cities that sign on to this are agreeing in advance to do it.

79

00:08:25.020 --> 00:08:33.480

Jamie Cole: pro rata these costs, which you know, cities are not the most cities, I don't think, are we going to be prepared to do the language that Michael and I have.

80

00:08:33.870 --> 00:08:41.550

Jamie Cole: His language now we'll take the first one we didn't really think there should be any language we don't think there should be a 7.1 point 1.94.

81

00:08:42.210 --> 00:08:47.970

Jamie Cole: We don't think it needs to be addressed at all that doesn't mean it couldn't be addressed in the master planner of operations but.

82

00:08:48.330 --> 00:08:54.780

Jamie Cole: We don't think it needs to be, but if it is going to be addressed here and there's going to be a 7.1 point nine for.

83

00:08:55.140 --> 00:09:04.770

Jamie Cole: The draft way we drafted it by using the word weather means that over the next year or two years, as we do the master of operations will discuss the issue when will decide.

84

00:09:05.280 --> 00:09:13.410

Jamie Cole: How the issue will be resolved now if it is resolved in a way that is not acceptable to the county the county can not agree to it and.

85

00:09:13.710 --> 00:09:22.260

Jamie Cole: same thing with the city's if we if it's resolved away the city's don't like it, then the cities don't have to go along with it, and you know things fall apart, obviously.

86

00:09:22.620 --> 00:09:32.250

Jamie Cole: But, just like we are not deciding now you know whether we're building certain facilities, you know how this is all going to work that's all for the masculine of operations The hope is that we get the IRA done.

87

00:09:32.760 --> 00:09:47.040

Jamie Cole: We get this approved by the cities and the county and then we have that momentum going, we have the entity created and will be able to address the masculine of operations, including this issue and a lot of other very difficult issues that will have to be addressed.

88

00:09:47.610 --> 00:09:57.060

Jamie Cole: But to basically impasse us over this issue now doesn't seem to be in anyone's best interest we really think that you should.

89

00:09:57.720 --> 00:10:07.740

Jamie Cole: By doing it with weather, at least that leaves the issue, it puts it in the eileen that this issue is an issue that will be discussed, and I think that's what the county wants they wanted the issue discussed.

90

00:10:08.340 --> 00:10:17.640

Jamie Cole: You know we're not prepared to recommend that you approve it with the how language, because then the issue is not just to be discussed it's already been resolved.

91

00:10:18.330 --> 00:10:26.430

Jamie Cole: In the county's favor which is not what we think that the cities are at least we don't think we're going to get all the cities to go along with that so.

92

00:10:26.850 --> 00:10:39.300

Jamie Cole: Our recommendation is to do, whether it keeps the issue open we'll deal with it over the next year to when we do the management of operations, the county will have accomplished it's you know beams goal of having this issue on the table.

93

00:10:40.230 --> 00:10:50.670

Jamie Cole: while at the same time not forcing the city's to agree to the county is solution in advance so that's why we have this language that Michael and I came up with.

94

00:10:51.210 --> 00:11:04.110

Jamie Cole: which we think isn't necessary but it's you know at least acceptable and the county's language, would you know presuppose the answer which makes it impossible for the city's join negotiate something differently over the next two years.

95

00:11:05.340 --> 00:11:08.430

Greg Ross: Thank you, I appreciate that Mike do you have anything to add to that.

96

00:11:09.060 --> 00:11:11.520

Michael Cirullo: No, I think Jamie captured our thinking.

97

00:11:12.600 --> 00:11:15.540

Greg Ross: And nathaniel are you there.

98

00:11:17.220 --> 00:11:18.750

Matthew Haber: This is matt I can actually handle it.

99

00:11:18.900 --> 00:11:20.340

Greg Ross: Okay, thank you okay.

100

00:11:20.670 --> 00:11:29.130

Matthew Haber: um, but I do see that kevin's hand is raised so if he wants to go first Kevin let me know and you can jump in otherwise i'll take it.

101

00:11:30.900 --> 00:11:39.690

SWRS: Okay i'll jump in thanks matt and i'm sure you'll it'll echo some of the points I have here, you know first I I need to point out that.

102

00:11:40.140 --> 00:11:48.750

SWRS: The hell is a presuppose or doesn't have a solution in advance, it just is an acknowledgement that there will be some sort of cost sharing.

103

00:11:49.110 --> 00:12:06.300

SWRS: And the cost sharing while it says pro rata does not necessarily mean it in order to the cities, it could be, you know done through tipping fair assessment or some other you know some other methodology all it does is it acknowledges the county's concern.

104

00:12:07.500 --> 00:12:17.820

SWRS: That you know the county cannot be the financial backstop in this situation, and you know, the sole financial backstop we will pay, you know we pay our share, but you know that there should.

105

00:12:18.480 --> 00:12:26.520

SWRS: be a sharing that costs the weather, like the weather language does not do that, and it would not be acceptable on from the county standpoint.

106

00:12:26.790 --> 00:12:36.990

SWRS: Because all it just says is that oh there's an issue and it puts it puts a fight, you know down the road here, and so, whether we have the impasse now or in past, then the past is going to happen.

107

00:12:37.320 --> 00:12:45.120

SWRS: And again, it was the county's preference at this be addressed on the front end and the IRA, because this is, you know we've been down this road, before.

108

00:12:45.600 --> 00:12:53.370

SWRS: And you know, we should learn from the past and have this stuff share, you know have this have this all worked out on the front end.

109

00:12:53.790 --> 00:13:01.290

SWRS: And yeah I don't believe that there would be consternation from the city's just by saying that there would be some sort of cost year.

110

00:13:02.100 --> 00:13:12.390

SWRS: You know, whatever methodology is agreed upon on that, but did not have this line which wouldn't have consternation on the counties far I do know that the county administrator would probably not.

111

00:13:13.440 --> 00:13:20.100

SWRS: You know, recommend this to her board and, Commissioner, for I don't know what like to speak for Commissioners but.

112

00:13:20.370 --> 00:13:28.980

SWRS: He and I did have a conversation yesterday in preparation for this meeting, because he can be here and and he had some concerns about supporting this as well.

113

00:13:29.580 --> 00:13:38.250

SWRS: So, all this is is just to acknowledge that there's going to be a cost share and and we, the case for this year is it does need to be addressed.

114

00:13:39.300 --> 00:13:44.070

Greg Ross: And, and we don't say that it should not be addressed and that's not what the city's the same.

115

00:13:44.460 --> 00:13:53.910

Greg Ross: And Jamie and my correct me if i'm wrong you're saying it will be addressed but in the master plan of operations, as opposed to.

116

00:13:54.330 --> 00:14:10.110

Greg Ross: Here in a charter where i'm not sure it belongs to begin with, but at least, and that was beams point at least it is addressed acknowledged really is the word to be used it's acknowledged that we know there is that issue.

117

00:14:10.500 --> 00:14:27.510

Greg Ross: and that it will be addressed in the master plan, which you know candidly will have a better, and I say we, everyone will have a better grip on what is the authorities going to do, how they're going to do it and that really.

118

00:14:28.110 --> 00:14:42.000

Greg Ross: gives a better understanding that the cities and the county will have at a later point in time, because you know candidly doing it as as suggested by the county.

119

00:14:42.750 --> 00:14:49.320

Greg Ross: The city's have no idea what the cost would be how it would be done, etc.

120

00:14:50.190 --> 00:15:01.230

Greg Ross: And the master plan of operations, not only would we have a better handle on it, because will be a year to two years down the road but at that point if.

121

00:15:01.680 --> 00:15:21.780

Greg Ross: Whichever county or cities are not happy, then we can opt out, so we need the momentum as as I think it was a micro jungle, it was Jamie who use that word to continue on this and Jamie is correct in saying it's to no one's advantage.

122

00:15:23.100 --> 00:15:33.240

Greg Ross: Not to proceed with this and I will go ahead and have ice mike's hand up I then have matt and then I have Kevin.

123

00:15:37.080 --> 00:15:46.590

Michael Cirullo: Why don't you let matt respond to maybe maybe he's responded to your comments, as well as backing up what Kevin said, then I can I can speak if I need to sure.

124

00:15:46.650 --> 00:15:47.670
Greg Ross: Not a problem matt.

125
00:15:48.060 --> 00:15:48.690
Matthew Haber: Thanks Mike.

126
00:15:49.770 --> 00:15:59.400
Matthew Haber: Thanks mayor Ross as well, I would like to back up a little bit and provide context on where this language sits and the draft of the inner local agreement.

127
00:16:02.580 --> 00:16:13.350
Matthew Haber: So you have here on both versions right black font and all of that is current language that represents the working groups prior agreements.

128
00:16:14.310 --> 00:16:30.810
Matthew Haber: 7119, which is a process to effectuate the orderly transfer services, this is not technically content for the La this language appears in a broader section that.

129
00:16:31.440 --> 00:16:41.790
Matthew Haber: sets out the requirements for a master plan so any other language you see in here isn't saying this is the IRA, and this is what the IRA is saying.

130
00:16:42.990 --> 00:16:54.330
Matthew Haber: It is the IRA saying the authority must implement the master plan and adopt a master plan and the contents of that master plan must include the following.

131
00:16:55.110 --> 00:17:03.960
Matthew Haber: And, including in that following is a process to effectuate the orderly transferred services, more particularly, you have these other things right.

132
00:17:04.350 --> 00:17:15.480
Matthew Haber: This position of reserve funds liabilities and now we're talking about car sharing so when the county asked for car sharing to be addressed in the La.

133

00:17:15.930 --> 00:17:35.340

Matthew Haber: And the working group said no, we actually asked what we have here is not an intent to put something in the La what we have here is whether or not it's going to be included in the master plan, and so, when the county says how the cost of capital expansion will be divided.

134

00:17:36.810 --> 00:17:49.920

Matthew Haber: it's just saying that the master plan must specify some procedure for that some procedure for how those are going to be divided and how those costs can even be recouped jointly by all of the parties.

135

00:17:50.730 --> 00:18:05.790

Matthew Haber: When instead, you have a proposal that says, whether their costs will be shared, this is no longer a requirement of the master plan, it is no longer something that must be addressed, it is the city, it is the county's concern that.

136

00:18:06.990 --> 00:18:12.360

Matthew Haber: Broadly speaking, we are going to be forced to be the financial backstop for this thing when it fails.

137

00:18:13.050 --> 00:18:24.240

Matthew Haber: And we've all agreed that that's not fair right the parties should be jointly sharing the cost of any failure of the authority parties are struggling making these decisions, they should jointly share in the successes and the failures of it.

138

00:18:25.650 --> 00:18:38.190

Matthew Haber: So we are not pre supposing any solution other than that the master plan must find a way for us to jointly share those costs if instead it says, whether.

139

00:18:38.610 --> 00:18:45.570

Matthew Haber: The master plan is going to address it, it means that the county could just end up in a place two years from now, where we are negotiating a master plan.

140

00:18:46.230 --> 00:18:53.880

Matthew Haber: And another attorney turns to the county attorney's office and says, well, it just says, whether it's optional we don't actually have to share costs.

141

00:18:54.750 --> 00:19:00.660

Matthew Haber: And we're right back where we started and the county has an additional concern that we will be accused of sandbagging.

142

00:19:01.200 --> 00:19:13.500

Matthew Haber: Right, we are trying to make our concerns very direct and very clear and get some advanced resolution to those concerns, we are very willing to negotiate we've been very clear about that we wanted this in the La.

143

00:19:13.860 --> 00:19:27.030

Matthew Haber: we've had three or four variations on how to address this concern and now we're down to a very simple question are we requiring that costs will be shared, or are we not sharing costs.

144

00:19:28.110 --> 00:19:40.890

Greg Ross: And, and I guess matt the question begs to be asked what costs and how much and that can't be answered until we get into the managerial cost.

145

00:19:40.920 --> 00:19:46.950

Matthew Haber: Point why the master plan would set out that procedure and with more specificity, this is just saying.

146

00:19:48.120 --> 00:19:56.430

Matthew Haber: From a principled standpoint that the master plan has to specify a lot of things, it will tell us the operations and what things are proper.

147

00:19:57.360 --> 00:20:07.050

Matthew Haber: But it also will have this principle that the end of the day, the county is not the financial backstop and it's flexible right, because it is saying that the master plan.

148

00:20:07.560 --> 00:20:14.790

Matthew Haber: So surcharge certainly we have right here Parada upon wind down based upon each party's projected usage of such facilities.

149

00:20:15.330 --> 00:20:26.280

Matthew Haber: that's just one way, we can handle it right, but I

think with the county is really concerned about is the first part of that clause right are we saying how because to me that supposes.

150

00:20:26.640 --> 00:20:41.640

Matthew Haber: that the costs of these costs must be shared right, the costs of failure are going to be spread across fairly whether leaves open the possibility that the county is still the financial backstop it says, well, we might share the costs we might not share the costs.

151

00:20:42.150 --> 00:21:00.390

Greg Ross: I, and I understand that, but take the word weather out and put the word if in so if, as a result of the wind down the counties required to incur costs, etc, etc, I think that may make it a little more palatable.

152

00:21:01.530 --> 00:21:04.350

Matthew Haber: Like where's part, this is the part that really concerns me.

153

00:21:05.040 --> 00:21:08.250

Greg Ross: Okay, and if so, whether those costs will be divided.

154

00:21:09.000 --> 00:21:11.880

Matthew Haber: it's right there saying that the cost may not be divided.

155

00:21:13.440 --> 00:21:15.120

Matthew Haber: And that is the heart of our disagreement.

156

00:21:15.690 --> 00:21:23.220

Greg Ross: Well, I think, instead of wording it that way, and how those costs will be divided.

157

00:21:24.390 --> 00:21:35.670

Greg Ross: See now i'm playing lawyer and i'm playing with words, but I think that's the way to do this so that everybody knows what's going to be approaching us in the master plan.

158

00:21:37.230 --> 00:21:46.560

Greg Ross: And there's there's and you have to appreciate and I say this on behalf of the cities cities aren't going to look to screw the

county period.

159

00:21:47.400 --> 00:21:52.710

Greg Ross: that's not the idea of this, the idea is we're in this together.

160

00:21:53.670 --> 00:22:15.600

Greg Ross: If there is a wind down, for whatever reason i'm not looking at the regions, right now, then this is what you know, has to be looked at and the methodology will be determined at a later date, but I don't want to take all the time i've got other people Mike Jamie and Tom and that order.

161

00:22:16.860 --> 00:22:19.290

Michael Cirullo: i'll defer to Tom and then I can speak.

162

00:22:20.250 --> 00:22:20.580

Okay.

163

00:22:21.720 --> 00:22:22.140

Greg Ross: Tom.

164

00:22:24.330 --> 00:22:32.730

Tom Good: Thank you, Mr Mayor, I unfortunately happen to be in a very bored location, can you hear me.

165

00:22:33.630 --> 00:22:34.950

Greg Ross: Yes, but you're.

166

00:22:34.980 --> 00:22:36.390

Greg Ross: you're coming in a little.

167

00:22:36.390 --> 00:22:36.930

slow.

168

00:22:40.080 --> 00:22:41.730

Tom Good: Yes, I apologize.

169

00:22:41.820 --> 00:22:43.020

Tom Good: A little better go hi.

170

00:22:46.110 --> 00:22:59.280

Tom Good: Thank you, so I do I want to say that, first and foremost I I do like the weather language, and the reason why I speak to that is because.

171

00:23:00.330 --> 00:23:13.650

Tom Good: If the county is the backstop if the county is required to provide the services and if the county is required to build capital assets to perform those services.

172

00:23:14.730 --> 00:23:17.760

Tom Good: They have other options other than receiving.

173

00:23:18.990 --> 00:23:23.310

Tom Good: payment from participating communities directly.

174

00:23:24.540 --> 00:23:31.380

Tom Good: If the county did become the backstop this would be considered an enterprise fund within the county.

175

00:23:32.940 --> 00:23:35.400

Tom Good: And all enterprise funds when they.

176

00:23:36.420 --> 00:23:41.010

Tom Good: build assets, they have the ability to build the cost.

177

00:23:42.090 --> 00:23:51.090

Tom Good: For cost recovery into their rate structures into their fees, the county would need to do nothing more than do a rate sufficiency study.

178

00:23:52.050 --> 00:24:00.960

Tom Good: determine what the rates would be required in order to get paid back to the assets that would be required So for me, recognizing.

179

00:24:01.590 --> 00:24:23.370

Tom Good: That the county has an enterprise fun with alternative ways of recovering the cost for any capital assets, I find that this

language weather is much better, and I agree with Jamie in the sense that if cities are going to be given this language that commits them to lay.

180

00:24:24.390 --> 00:24:33.570

Tom Good: A liability that doesn't exist today it's going to be a very difficult move forward so Mr chair, thank you very much for allowing me to speak my opinion.

181

00:24:34.230 --> 00:24:35.130

Tom Good: And thank you.

182

00:24:35.370 --> 00:24:38.100

Greg Ross: And I had Michael Jamie Mike.

183

00:24:38.670 --> 00:24:40.320

Michael Cirullo: Though I just wanted to.

184

00:24:41.460 --> 00:24:48.660

Michael Cirullo: To say you know what we're what we're suggesting what what Jamie nice isn't isn't that were foreclosing.

185

00:24:49.590 --> 00:25:01.530

Michael Cirullo: that there would be some sort of agreement in the master plan of some sort of cost sharing, but what we're saying is 71194 provides an answer.

186

00:25:02.310 --> 00:25:13.320

Michael Cirullo: To questions that haven't been asked, yet under the rest of 7119 and it may be that during the work through the master plan and the understanding of what's going to be involved.

187

00:25:13.830 --> 00:25:26.790

Michael Cirullo: In the wind down that everybody comes to an understanding that yes, this wind down is going to require all this different this that the other and that's going to be a cost, and yes Okay, we understand that now.

188

00:25:27.660 --> 00:25:35.250

Michael Cirullo: With it written the way it is right now, and the county I guess saying this is their line in the sand and move this

forward at this time.

189

00:25:35.970 --> 00:25:46.860

Michael Cirullo: And this they're going to require a decision on on on this answer at this point I don't think that that's that's not what Jamie and I intended Jamie and I intended to have.

190

00:25:47.370 --> 00:25:58.230

Michael Cirullo: This whether it puts it, it means the issue of cost sharing has to be addressed it just doesn't say presuppose that there will be cost sharing and even as the county.

191

00:25:58.710 --> 00:26:15.120

Michael Cirullo: writes it, you know it doesn't really you know commit to a cost sharing that would be in any says pro rata, I guess, but you know again that that kind of throws us into what that is i've just My concern is that it's a timing issue and it's not an answer issue.

192

00:26:16.620 --> 00:26:21.960

Michael Cirullo: And I just like to leave it at that, because we we Jamie and I don't make the decision on whether.

193

00:26:23.160 --> 00:26:32.100

Michael Cirullo: How would be, and whether the with the we're trying to provide this list as we discussed before of items that need to be addressed and the master plan.

194

00:26:33.120 --> 00:26:41.580

Michael Cirullo: And you know the go the other way if with matt said about the being concerned about the county being blamed for sandbagging.

195

00:26:42.000 --> 00:26:51.570

Michael Cirullo: If it's written this way and cities sign off on it when they get an understanding and what that could be you're going to have you could have city dropping off to just because the.

196

00:26:52.560 --> 00:27:02.190

Michael Cirullo: Two years from now, the county says, where you're required to call shave costs because that's here, so it works both ways on that issue that's all i've got a side.

197

00:27:02.970 --> 00:27:06.330

Greg Ross: Point well taken Thank you and then I had Jamie.

198

00:27:07.470 --> 00:27:28.170

Jamie Cole: Thank you me right, I think that Tom made a an excellent point and that how this is going to be paid for 3040 5060 years from now, when there's a wind down when, for some reason the authority has ended by its own terms or expired.

199

00:27:29.430 --> 00:27:40.320

Jamie Cole: or terminated is there's going to be lots of options on how these costs will be paid as we sit here today, for having the authority.

200

00:27:40.830 --> 00:27:57.090

Jamie Cole: there's no mechanism that forces that the county can use to force the city's to use their general fund or ad valorem dollars to pay for this, this would create a contractual obligation that.

201

00:27:58.260 --> 00:28:13.590

Jamie Cole: The cities would be forced to pay a certain way to the county and it's a financing mechanism that does not currently exist, so there by by pre supposing by using the word how it's going to be done, the cost be divided Parada.

202

00:28:15.270 --> 00:28:27.270

Jamie Cole: it's going to force cities into a situation to increase the military to pay for this, whereas that may not be the right way to do this so by using the word whether.

203

00:28:27.660 --> 00:28:35.340

Jamie Cole: It leaves open over the next two years we'll be able to discuss that issue before we combine finish up the master plan.

204

00:28:35.940 --> 00:28:45.450

Jamie Cole: And if obviously if we can't come to an agreement on this, just like we can't come to an agreement on lots of other very big things we're going to be talking about then it's gonna be a problem we have to come to an agreement.

205

00:28:45.960 --> 00:28:55.680

Jamie Cole: But if you look at the language that we did agree to look at 7.1 point 192 which is we, we agreed to the word how on that one.

206

00:28:56.220 --> 00:29:05.790

Jamie Cole: How liability of the authority, including that associate with assets being transferred will be satisfied, because if the authority has a liability and the authority ends.

207

00:29:06.330 --> 00:29:15.390

Jamie Cole: You have to deal with it, you have to satisfy that liability we can't just say oh we're ending it and the liabilities just go away, so we agreed to how on that one.

208

00:29:15.780 --> 00:29:28.980

Jamie Cole: But then, if you look at some point 1.193 we said whether or how so we use both words, whether or how the county may acquire assets and have the authority that county tends to continue operating etc.

209

00:29:29.430 --> 00:29:34.830

Jamie Cole: Because for that one we're not sure whether the county is going to acquire so it's a whether or how.

210

00:29:35.490 --> 00:29:43.890

Jamie Cole: This one you know, maybe that's the solution we can use our language but put in, instead of whether we'll see whether or have when we use the word weather.

211

00:29:44.160 --> 00:29:51.270

Jamie Cole: Because we don't know how it's we don't want to say how because that presupposes the answer to the question.

212

00:29:52.170 --> 00:30:02.490

Jamie Cole: You know the county by by injecting this language and using the word, how is forcing cities now to agree that 3040 5060 years from now.

213

00:30:02.850 --> 00:30:09.420

Jamie Cole: they're going to have this financing mechanism, the city is going to be forced to pay the money this way and I don't think the cities are going to be very.

214

00:30:09.900 --> 00:30:21.270

Jamie Cole: willing to do that so by using whether we're how using both words, I think that might solve the problem and it guarantees the issue we talked about over the next two years and.

215

00:30:21.660 --> 00:30:27.150

Jamie Cole: Hopefully resolved one you know some way, maybe not one way or the other, maybe there'll be a third option that.

216

00:30:27.750 --> 00:30:31.830

Jamie Cole: That will come up with that we haven't thought of yet, but it.

217

00:30:32.280 --> 00:30:39.630

Jamie Cole: You know the issue will be addressed, we keep our momentum going and like Tom said, maybe the solution is that the county would just do.

218

00:30:39.960 --> 00:30:45.840

Jamie Cole: A fee structure that that pays for these costs, rather than forcing cities to use their ad valorem taxes.

219

00:30:46.290 --> 00:30:59.490

Jamie Cole: So that's why we feel that this is a pretty important issue that we can't presuppose the answer now, and it should know by using whether or how do those both words, I think that might solve the problem.

220

00:31:00.270 --> 00:31:10.710

Greg Ross: I appreciate that i'm going to call on matt in a moment, but giving heads up to Mike Ryan, Mr Steve glassman.

221

00:31:11.610 --> 00:31:29.850

Greg Ross: Commission, I have ilana Commissioner Tooley and vice mayor merrison that the Socratic method is going to be used, so I want to I want you guys to chime in one way or another, you can volunteer I will be calling on you, this is an important issue for everyone to expand on MAC.

222

00:31:32.970 --> 00:31:33.990

Matthew Haber: Thank you mayor Ross.

223

00:31:35.220 --> 00:31:42.090

Matthew Haber: So my understanding of the last meeting that the working group had.

224

00:31:44.160 --> 00:31:46.830

Matthew Haber: was that we were going to.

225

00:31:48.900 --> 00:31:52.200

Matthew Haber: consider ways to.

226

00:31:53.280 --> 00:31:57.390

Matthew Haber: prevent the county from being the the lone financial backstop.

227

00:31:58.650 --> 00:32:03.990

Matthew Haber: To this enterprise and really that only.

228

00:32:05.310 --> 00:32:13.080

Matthew Haber: that's only a real thing if there's a guarantee that the county doesn't end up being the lone financial backstop.

229

00:32:14.160 --> 00:32:31.410

Matthew Haber: So you know the way again I understood that direction was that that is the goal and we're going to find different mechanisms to reach that goal right, we can talk about different ways of car sharing, we can talk about, however.

230

00:32:32.430 --> 00:32:45.600

Matthew Haber: You know in in the how proposal on the top of the screen, like the divided among the parties pro rata we only included the pro rata language, because we heard you say that at the last meeting we're happy to remove pro rata.

231

00:32:47.730 --> 00:32:52.080

Matthew Haber: But I think the broader issue here is that.

232

00:32:53.430 --> 00:33:02.040

Matthew Haber: This is not the master plan what I keep hearing is a concern that we need flexibility because we don't know what the

operations are going to be.

233

00:33:02.400 --> 00:33:14.580

Matthew Haber: So we need to be able to make those decisions at the master plan stage and that's precisely what the county is trying to achieve we're trying to get to a point where there is.

234

00:33:15.420 --> 00:33:28.320

Matthew Haber: If it seems that these things are necessary right that there are facilities that there is going to be the possibility of a capital expansion, because of the way that the authority is planned to handle solid waste disposal.

235

00:33:30.420 --> 00:33:41.400

Matthew Haber: That the county is guaranteed that it is not the financial backstop and, unfortunately, whether or how isn't language that does that to me whether or how is the same as weather.

236

00:33:42.150 --> 00:33:51.180

Matthew Haber: And you know we will agree to weather how, in some circumstances, but that's not the position that the county can take on this issue.

237

00:33:51.690 --> 00:34:03.810

Matthew Haber: And so we can be flexible in terms of how much language gets into the IRA about what the master plan must address because, again, the master plan.

238

00:34:04.170 --> 00:34:11.310

Matthew Haber: does not have to force the city's into anything with the master plan has to do is address.

239

00:34:12.120 --> 00:34:25.290

Matthew Haber: How decisions will be made the procedure for making decisions we don't need to have that in this document, what we can say is that these things must be shared if they're if they're applicable right.

240

00:34:27.360 --> 00:34:40.350

Matthew Haber: And that the cities and the county will decide jointly based on xyz conditions right that doesn't need to go into this document, this is the La we understand we're not putting this in the

La.

241

00:34:40.830 --> 00:34:49.890

Matthew Haber: But the master plan will need to have that level of specificity, the master plan will be telling us whether or not the materials recovery facility is going to be needed.

242

00:34:50.130 --> 00:35:06.300

Matthew Haber: The master plan is going to provide for financing it's going to tell us how much reserve funds are necessary it's going to have the very detailed plan of operations and also a very detailed plan for what needs to happen when we need to wind down.

243

00:35:07.380 --> 00:35:28.110

Matthew Haber: And so all we're saying is that because it's going to have that level of detail, it can also have that detail to jointly determine to allow all the parties to jointly determine based on xyz thing how this is going to be paid for, and recouped if necessary.

244

00:35:30.150 --> 00:35:39.990

Matthew Haber: And that I think is really at the end of the day, if we go whether it really does concern me especially considering the the time frame we're talking about.

245

00:35:40.410 --> 00:35:47.370

Matthew Haber: Currently we're talking about an initial term a four years, that means that most of the people on this call.

246

00:35:47.850 --> 00:35:53.190

Matthew Haber: will not be making the decisions, then they will not be interpreting the IRA, they will not be interpreting the master plan.

247

00:35:53.820 --> 00:36:04.590

Matthew Haber: So we need a way to memorialize the intent of the parties today, and so that that is again again we don't need to use the exact language that the county drafted at the top of the screen.

248

00:36:06.030 --> 00:36:18.630

Matthew Haber: But I do think it needs to say that the parties are jointly sharing these costs, rather than forcing them onto the county alone and that the master plan will determine how those decisions get jointly made.

249

00:36:21.270 --> 00:36:23.910

Greg Ross: appreciate that i've got.

250

00:36:25.590 --> 00:36:34.950

Greg Ross: Between may Ryan Commission and glassman Commission I have ilana commission to to lead and vice mayor merrison wants to go first.

251

00:36:37.260 --> 00:36:38.130

Michael Ryan: i'll go for.

252

00:36:38.190 --> 00:36:39.030

Greg Ross: Thank you very much.

253

00:36:39.060 --> 00:36:44.850

Michael Ryan: You need to not not to you need to inspire me with threats of Socratic method.

254

00:36:45.540 --> 00:36:46.350

Greg Ross: On anything.

255

00:36:49.290 --> 00:36:52.140

Michael Ryan: I i'm a little.

256

00:36:53.700 --> 00:37:04.470

Michael Ryan: cautious here, because it seems like we have a log jam on the negotiations because this group right is representing both county and.

257

00:37:05.610 --> 00:37:27.420

Michael Ryan: And the cities and and I understand that Commissioner for would naturally follow the advice of matt and there are one or more of the cities that would actually follow jamie's and mike's advice and obviously Tom goods comments are well taken I don't I don't see a solution.

258

00:37:28.920 --> 00:37:32.970

Michael Ryan: I am going to side with.

259

00:37:34.710 --> 00:37:45.450

Michael Ryan: Jamie and Mike are Michael are on this and I would know that badly, I may have missed it, but there was even a comment you know if ness to Sarah on some of this so you're right.

260

00:37:45.480 --> 00:37:59.220

Michael Ryan: we're 40 years predict, you know before this has to be decided, potentially, we have no idea what the scope of statutory Jordan will be whether you know there'll be further advances.

261

00:38:00.450 --> 00:38:05.790

Michael Ryan: So I i'm good with whether and how or whether or how but I don't know where that gets.

262

00:38:05.820 --> 00:38:06.780

Greg Ross: us if what.

263

00:38:06.810 --> 00:38:18.090

Michael Ryan: Can I accept what matt says at face value that there, so it seems to me that if we need to find a solution that doesn't have this in this initial document in some way.

264

00:38:19.920 --> 00:38:23.130

Michael Ryan: and leaves it to be determined by.

265

00:38:25.050 --> 00:38:26.250

Greg Ross: By county you're breaking.

266

00:38:26.250 --> 00:38:29.640

Michael Ryan: are an insurance policy for something that hasn't had.

267

00:38:31.290 --> 00:38:33.630

Michael Ryan: If the county's looking for an insurance policy for.

268

00:38:33.630 --> 00:38:35.040

Jamie Cole: Something that hasn't happened yet.

269

00:38:35.130 --> 00:38:36.390

Michael Ryan: i'm going to have a difficult time.

270

00:38:37.500 --> 00:38:39.180

Michael Ryan: Providing that Thank you sure.

271

00:38:39.870 --> 00:38:40.620

Greg Ross: Thank you.

272

00:38:43.800 --> 00:38:49.020

Greg Ross: Anyway, anyone else, Mary Lou have their raise hand, or shall I start calling on people.

273

00:38:50.430 --> 00:38:54.150

Mary Lou Tighe: Happy on it has passed her again raised, followed by nathaniel.

274

00:38:54.570 --> 00:38:56.820

Greg Ross: Wonderful because I have ilana.

275

00:38:57.150 --> 00:38:58.500

Sabrina Javellana: Oh, Mr clifford can go first.

276

00:39:00.090 --> 00:39:03.030

Greg Ross: And he'll tell me, you can go first I know nathaniel.

277

00:39:04.320 --> 00:39:12.930

Nathaniel Klitsberg: I will in fact say that Commissioner had a lot, I could go first if she insists i'll speak and I apologize if there's road noise i'm.

278

00:39:13.470 --> 00:39:23.130

Nathaniel Klitsberg: In the middle of driving through Illinois back to Florida with my family's ah so that's why I have not commented earlier so pleasure, have a lot of field, please feel free.

279

00:39:24.750 --> 00:39:35.610

Sabrina Javellana: um well I I think hearing your comments will help me but i'm just kind of like also kind of in the same place as Mike because I see pros and cons to all of them, whereas like you know one.

280

00:39:36.300 --> 00:39:47.250

Sabrina Javellana: If we go with one option, the counties will not agree with it, if we go with another option it'll get it'll be hard for us to get the cities to sign on and agree to it.

281

00:39:47.970 --> 00:39:57.540

Sabrina Javellana: But I I do I don't believe that you know the city, the county should be the only party liable for the future costs.

282

00:39:58.320 --> 00:40:09.450

Sabrina Javellana: financially for this endeavor when ever this is there's the wind down, so I mean I don't know if i'm alone in that thought, if we can just say something like the county.

283

00:40:10.320 --> 00:40:23.970

Sabrina Javellana: If we add language thing, like the county is not solely financially financially liable for the wind down like I mean we would all have a part to play in this, so I don't know if that would make all the cities hesitant.

284

00:40:25.380 --> 00:40:28.620

Sabrina Javellana: But I I do want to find like I don't know what the common ground is but.

285

00:40:29.760 --> 00:40:36.000

Sabrina Javellana: i'm just seeing you know a lot of disconnect between like you know if we go with one than the county pulls out if we go with one option and.

286

00:40:36.390 --> 00:40:41.640

Sabrina Javellana: All the cities won't agree and join this endeavor so i'm just kind of like trying to figure out what.

287

00:40:42.540 --> 00:40:52.080

Sabrina Javellana: would put everyone on the same page or or how we can agreed and keep keep this moving forward, so I mean, I guess, I want to hear from everybody else, but because I see pros and cons to all the different.

288

00:40:53.130 --> 00:40:59.640

Sabrina Javellana: You know the options that the how the weather the how and whether or you know waiting till the master plan so.

289

00:41:01.530 --> 00:41:02.280

Sabrina Javellana: i'll come back.

290

00:41:03.750 --> 00:41:05.520

Greg Ross: Thank you Sabrina appreciate that.

291

00:41:06.840 --> 00:41:07.380

Greg Ross: Daniel.

292

00:41:08.460 --> 00:41:22.140

Nathaniel Klitsberg: Thank you, Mary Ross so again, just to be clear that this language came about as a result of the direction at the last meeting originally the county had proposed language.

293

00:41:23.580 --> 00:41:27.030

Nathaniel Klitsberg: That was going into the IRA to specify.

294

00:41:28.830 --> 00:41:39.930

Nathaniel Klitsberg: Exactly how the cost of capital expansion would be shared between the parties and, at the last meeting the direction that was received was two.

295

00:41:40.350 --> 00:41:47.610

Nathaniel Klitsberg: Three fold and I apologize if any of this is repetitive of what matt said earlier, or others have said earlier, the first of which was.

296

00:41:48.480 --> 00:41:57.450

Nathaniel Klitsberg: The direction that we got in the consensus that there was at the meeting at least my understanding was that it would be unfair for the county to be the.

297

00:41:58.410 --> 00:42:13.050

Nathaniel Klitsberg: sole party financially responsible for expanding its capital facilities to accommodate the municipalities solid waste because the county could to fulfill its statutory obligations, and I believe that I mentioned this at the last meeting.

298

00:42:14.100 --> 00:42:22.620

Nathaniel Klitsberg: If the authority winds down and there is a need

for the municipalities to have a place for their solid waste the county could enter into a contract with.

299

00:42:23.010 --> 00:42:35.490

Nathaniel Klitsberg: I don't know macon Georgia at a ridiculous amount per time and say that we've met our statutory obligation, but we were trying to and I mentioned this at the last meeting in an attempt to be a good partner.

300

00:42:37.020 --> 00:42:41.160

Nathaniel Klitsberg: What we had suggested was in the iowa the very specifics of how.

301

00:42:42.270 --> 00:42:48.960

Nathaniel Klitsberg: The cost would be shared the direction that we got was we can't have that specific in the iowa.

302

00:42:49.680 --> 00:42:58.860

Nathaniel Klitsberg: But put something in the agreement that says that when we get to the master plan how those costs will be shared will be addressed.

303

00:42:59.760 --> 00:43:15.180

Nathaniel Klitsberg: And again, I mentioned earlier mayor Ross I believe that the phrase pro rata was used a couple of different times at the last meeting but we're not wedded to the concept of pro rata it was only included because that was the direction and instruction that happened at the last meeting.

304

00:43:16.350 --> 00:43:21.330

Nathaniel Klitsberg: The issue of how the costs will be addressed and how the costs will be shared.

305

00:43:22.350 --> 00:43:28.650

Nathaniel Klitsberg: On, in our view, and in the discussions that have been had with Commissioner for in his view.

306

00:43:29.850 --> 00:43:39.450

Nathaniel Klitsberg: needs to be addressed in the master plan, not whether those costs, you will be shared needs to be addressed in the master plan, but how the sharing of those costs occur.

307

00:43:40.170 --> 00:43:52.170

Nathaniel Klitsberg: And I also need to take a little bit of a step back, because both Jamie Mike and all of the attorneys from the county attorney's office are sort of wearing two hats in connection with all of us.

308

00:43:53.340 --> 00:44:02.700

Nathaniel Klitsberg: We will draft what the direction of the working group is there are many provisions that have gone into the IRA to this point.

309

00:44:03.240 --> 00:44:08.730

Nathaniel Klitsberg: That are not language that the office of the county attorney would have necessarily included.

310

00:44:09.300 --> 00:44:20.100

Nathaniel Klitsberg: i'm sure there are provisions that are in the IRA that are not what Jamie or Mike would have necessarily included, but we're acting a script nurse from the direction that we're receiving from the working group.

311

00:44:21.120 --> 00:44:32.520

Nathaniel Klitsberg: So you know, in terms of this being an issue that's coming to a head at the end of the day, there will be an IRA that will be drafted by the attorneys who have been tasked with drafting.

312

00:44:33.810 --> 00:44:40.080

Nathaniel Klitsberg: The issue becomes and I think that there was, I think this was actually part of the discussion at.

313

00:44:40.620 --> 00:44:48.030

Nathaniel Klitsberg: The last meeting there are plenty of what the heck provisions that we're going to get comments back from various cities.

314

00:44:48.840 --> 00:44:58.890

Nathaniel Klitsberg: And from the county i'm sure from county administration and from our board on a lot of the provisions we're trying to avoid a stronger what the something else.

315

00:44:59.490 --> 00:45:10.410

Nathaniel Klitsberg: With what's being drafted the how language it again may Ross your comment earlier of changing something to how.

316

00:45:11.400 --> 00:45:21.570

Nathaniel Klitsberg: A does have a presupposition that there will be a discussion about that issue, and there will be at the end of the day, some level of cost sharing.

317

00:45:22.470 --> 00:45:30.330

Nathaniel Klitsberg: which was again the instruction that I understood that we got from from you mayor awesome from the rest of the working group after the discussion at the last meeting.

318

00:45:30.810 --> 00:45:42.300

Nathaniel Klitsberg: we're not wedded to the language of pro rata and then, if pro rata comes out all it says is the beat master plan will address how the costs of the cat of the expansion of counties facilities.

319

00:45:44.010 --> 00:45:48.090

Nathaniel Klitsberg: will be divided between the parties, based on usage.

320

00:45:49.320 --> 00:45:57.210

Nathaniel Klitsberg: It doesn't indicate any specific percent it doesn't indicate that there is going to be a capital expansion.

321

00:45:58.080 --> 00:46:04.170

Nathaniel Klitsberg: all it says is the master plan has to address that to me because, if 20 years down the road from now.

322

00:46:04.920 --> 00:46:16.650

Nathaniel Klitsberg: The authority winds down and there needs to be a capital expansion, we will already know, because two or three years from now, the parties will have decided how those costs are going to be addressed.

323

00:46:17.790 --> 00:46:29.010

Nathaniel Klitsberg: um I really don't have anything more to add at the end of the day, this is ultimately going to be a policy decision and direction from the working group in terms of how the lawyers are

going to draft the language.

324

00:46:29.460 --> 00:46:34.590

Nathaniel Klitsberg: And then the lawyers, when this goes out to their various clients are going to put on their other hat.

325

00:46:35.910 --> 00:46:45.660

Nathaniel Klitsberg: and have to make a recommendation, about whether to accept or reject or make suggested changes to the document, and I think that we're all trying to avoid.

326

00:46:46.440 --> 00:47:01.380

Nathaniel Klitsberg: Unnecessary changes at the end of the day, it would have again been the county's preference to address this in full detail in the document, but that was not the direction that we got from the working group, so we follow that direction.

327

00:47:03.240 --> 00:47:08.100

Greg Ross: nathaniel I appreciate your comments, as always, and I have Commissioner glassman.

328

00:47:09.480 --> 00:47:10.590

Or the price Mare.

329

00:47:11.610 --> 00:47:12.330

Commissioner Steven Glassman: No actually.

330

00:47:12.390 --> 00:47:15.720

Commissioner Steven Glassman: it's Commissioner but thank you it's it's whatever you want.

331

00:47:16.050 --> 00:47:24.870

Commissioner Steven Glassman: Not a mom Thank you very much, man, I was gonna say a bunch of different things in the beginning, but actually just listening to the fan you'll talk.

332

00:47:25.290 --> 00:47:32.400

Commissioner Steven Glassman: um I found what he said to be very reasonable, and I think we're going to just have to continue to work on finding that middle ground.

333

00:47:33.060 --> 00:47:43.830

Commissioner Steven Glassman: I agree with everything Jamie said earlier about the weather language and I just feel that we have to continue, we would have to find the middle ground, and I, and I do think it's going to have to be flushed out.

334

00:47:44.220 --> 00:47:52.890

Commissioner Steven Glassman: Much more so, but in the master plan, but i'm very good with what he said and I it's encouraging and I think we will get there, but I don't think we're there yet.

335

00:47:54.120 --> 00:47:57.870

Greg Ross: appreciate that I have next commissioned a truly.

336

00:48:01.680 --> 00:48:19.050

BTooley: I actually i'm like what Jamie said, and one thing I keep on thinking is our residents pay city taxes, but they also pay county taxes so they're kind of paying twice for it, so I think it's something that's going to have to be worked out, I like to use of whether or how.

337

00:48:20.220 --> 00:48:25.920

BTooley: So the cities aren't forced to raise our taxes at the end and I know it's it's a tough thing but.

338

00:48:27.390 --> 00:48:30.270

BTooley: I think it may keep some of the cities from saying yes to this.

339

00:48:31.950 --> 00:48:33.870

Greg Ross: appreciate that uh Jamie.

340

00:48:35.130 --> 00:48:37.980

Greg Ross: Your you have your hand up it again Am I correct.

341

00:48:38.070 --> 00:48:39.330

Greg Ross: Yes, okay.

342

00:48:40.620 --> 00:48:55.620

Jamie Cole: Okay, so you know, I think that part of the issue here,

the question of cost sharing is that right now the statutory obligations with the county this not the cities.

343

00:48:56.160 --> 00:49:04.560

Jamie Cole: So, as we sit here now that obligation is on the county and what they're really trying to do by putting in the how language is.

344

00:49:05.190 --> 00:49:12.810

Jamie Cole: expressly state that, when we get a master plan of operations it's going to say that some portion or all that portion.

345

00:49:13.110 --> 00:49:27.180

Jamie Cole: Of that obligation is being the cost obligations being transferred from the county to the cities and that's I think why we're having such a problem so maybe we need to forget about the word how forget about the word whether.

346

00:49:27.870 --> 00:49:41.880

Jamie Cole: I mean what this is supposed to be doing in some point 1.1 point nine is listing the issues that are going to be discussed in the master plan of operations it's not supposed to necessarily presuppose the answer.

347

00:49:42.360 --> 00:49:46.080

Jamie Cole: So what if, instead of saying how or whether we just say.

348

00:49:46.860 --> 00:49:55.620

Jamie Cole: That So if you look at the beginning, it, it says it's a process for factory town so including a detailed process addressing colon and it lists things.

349

00:49:55.980 --> 00:50:10.380

Jamie Cole: So maybe the issue that we would list would be the manner by which the cost of any necessary capital expansion for county own facilities Shelby pay.

350

00:50:11.070 --> 00:50:20.610

Jamie Cole: That way we're not pre supposing the county's paying at all we're not pre supposing that the cities are paying all or any part it just leaves the issue open.

351

00:50:20.970 --> 00:50:28.440

Jamie Cole: For the master plan of operation, which I think is why we're putting it here, instead of just having a provision addressing it in the iowa.

352

00:50:29.040 --> 00:50:35.160

Jamie Cole: Obviously we don't have an answer to the final questions we can't put it in the aisle a what the answer is.

353

00:50:35.820 --> 00:50:57.600

Jamie Cole: By the same token, we shouldn't be putting in this provision that the master plan will address the issue in a specific way that presupposes the answer so so matt Maybe you can write down my language i'm somewhere, so it would say the manner by which the cost.

354

00:50:59.490 --> 00:51:21.450

Jamie Cole: of any necessary capital expansion of county own facilities shall be paid, and that would be 7.1 point 1.94 which doesn't answer it in a way that favors the county it also does not answer it in a way that favors the city it just leaves the issue open for discussion later.

355

00:51:23.520 --> 00:51:29.040

Greg Ross: I gotta be honest, I wish I told her that I like it, I like it, because it's fair it's equal to both.

356

00:51:31.140 --> 00:51:32.760

Greg Ross: I really do like a.

357

00:51:34.350 --> 00:51:47.730

Greg Ross: Good one um and and let me just and and and and i'll say the obvious of let's not forget it's not just the cities and the county who have parties you've got the authority.

358

00:51:48.330 --> 00:52:01.590

Greg Ross: And the authority is the the one to really be primarily, if you will, responsible, with all the assets, it has that it pays the costs, etc, so.

359

00:52:02.160 --> 00:52:12.810

Greg Ross: You know we're talking about when it comes down to the

residents, whether they are city residents, whether they are county residents, whether they're participating in the authority.

360

00:52:13.440 --> 00:52:25.320

Greg Ross: it's it's coming down to the people it's really the methodology and the way Jamie you've said it really leaves it open because, as I said it many, many times before.

361

00:52:25.950 --> 00:52:38.610

Greg Ross: it's, we can only do so much we can't look into the future 40 years later and and as Tom said there may be federal grants or or assessment any which way we don't know.

362

00:52:39.060 --> 00:52:51.390

Greg Ross: We shouldn't be limited and we shouldn't limit them for two years from now on how to do it, so that that's good, and I think in in a year or two we'll have the master of OPS i've got matt whose hand is up.

363

00:52:52.680 --> 00:53:01.020

Matthew Haber: Thank you, Mary Ross I was with Jamie until he said will be paid, unfortunately, I read this just to say that well.

364

00:53:01.770 --> 00:53:14.100

Matthew Haber: It does not require division of costs, it could just be the the county is paying 100% of it and that's what the master plan says and, at the last minute, the county says we, we have to pull out of this we can't sign that master plan.

365

00:53:15.420 --> 00:53:33.360

Matthew Haber: But I do think that we are getting closer right because we're I do see Jamie and myself agreeing is that what we're looking to do is create a process right we're looking to set up a procedure that the master plan is going to.

366

00:53:35.340 --> 00:53:55.980

Matthew Haber: specify that will allow us to say hey jointly, whether or not this is necessary, and if it is necessary, how we're dividing those costs so morose actually liked what you had said earlier, so if I go to the version of 7.1 point 1.9 point four.

367

00:53:56.910 --> 00:54:10.800

Matthew Haber: That you modified its if, as a result of the existence and wind down on the authority the county is required to incur costs associated with a national over the necessary capital expansion for county own facilities.

368

00:54:11.190 --> 00:54:32.370

Matthew Haber: And how those costs will be divided i'm going to take away in any way among the parties on wine down, and we can even add in that the master plan will specify a procedure for jointly making those determinations and for jointly recovering those costs.

369

00:54:33.480 --> 00:54:43.860

Matthew Haber: But it still doesn't say that this has to happen in all scenarios it's saying that we can set out conditions under which they would happen one of those conditions in which is.

370

00:54:44.220 --> 00:54:55.470

Matthew Haber: would have to happen, it might be that the county still has the statutory obligation right i've heard several times a 40 years a lot of things can happen if the statutes change and county no longer has the obligation.

371

00:54:56.250 --> 00:55:01.080

Matthew Haber: The master plan could say if that condition changes, this is no longer an issue.

372

00:55:03.300 --> 00:55:18.870

Matthew Haber: But I do think that, if we are just saying will be paid, it still doesn't get us to a place where the county has any comfort that it will be treated fairly and you know, the next few decades, you know and just to put a sort of.

373

00:55:20.070 --> 00:55:21.360

Matthew Haber: Real clear.

374

00:55:23.700 --> 00:55:29.490

Matthew Haber: sort of lens on this, you know we're talking about critical public health services.

375

00:55:29.880 --> 00:55:44.790

Matthew Haber: If the authority fails, and the county still has the statutory obligation it's going to be obligated to provide those

services for all residents relatively quickly, and in doing so it's going to incur costs that are going to be significant.

376

00:55:45.240 --> 00:55:53.250

Matthew Haber: And so all we're asking is that the other parties who are making the decision with us that led to this wind down.

377

00:55:54.450 --> 00:55:56.100

Matthew Haber: to share and.

378

00:55:57.330 --> 00:56:01.710

Matthew Haber: The upfront costs that relate to providing that critical public health service.

379

00:56:03.990 --> 00:56:07.080

Greg Ross: Art I thank you i've got committed American.

380

00:56:10.470 --> 00:56:10.770

Bob Mayersohn: Oh.

381

00:56:11.550 --> 00:56:13.710

Bob Mayersohn: Yes, i'm here i'm here.

382

00:56:14.040 --> 00:56:16.530

Greg Ross: Thank you, Mr President, you're welcome.

383

00:56:17.280 --> 00:56:38.670

Bob Mayersohn: um I kind of look at this may be a different way, or maybe similar but I guess what we're debating here is whether or not whoever's paying for funding sufficient enough to cover costs, whether it's the counties whether it's the cities, whether it's a grant whether it's you know.

384

00:56:39.960 --> 00:56:45.150

Bob Mayersohn: Being for writing a check, I mean whoever it might be is that that's what we're kind of looking at.

385

00:56:46.140 --> 00:56:55.260

Bob Mayersohn: So, I guess, from my perspective is if the county is looking for, I guess, an insurance policy.

386

00:56:56.010 --> 00:57:19.260

Bob Mayersohn: um you know they have the ability to to to charge a millage rate, they have the ability to assess, as well as cities do but but we're also here, making the assumption that every city is going to be part of this let's say there are only out of the 31 there were only 18 cities.

387

00:57:20.490 --> 00:57:38.880

Bob Mayersohn: How are we going to then again if they're using county facilities or other things, how are they going to be assessed or share that costs um so I guess putting it into a master plan that a master plan can kind of be updated their plea.

388

00:57:40.560 --> 00:57:49.470

Bob Mayersohn: is really I think benefits everybody then necessarily putting it into an agreement splitting hairs about it.

389

00:57:50.190 --> 00:57:53.730

Bob Mayersohn: Getting back to the same scenario of who's going to pay for it at the end.

390

00:57:54.480 --> 00:58:02.550

Bob Mayersohn: Because we don't know what those costs are or you know, like Commissioner good said whether or not there are grants, whether or not there are other ways.

391

00:58:03.000 --> 00:58:20.820

Bob Mayersohn: um I think we're trying to put the cart before the horse, so you know to jamie's point, I would just leave this language out of the inner local agreement and just you know included some way in the master plan to have that discussion.

392

00:58:22.290 --> 00:58:22.770

Greg Ross: Thank you.

393

00:58:23.880 --> 00:58:26.430

Greg Ross: And then I have Jamie.

394

00:58:27.810 --> 00:58:28.740

Greg Ross: And then Marion.

395

00:58:29.160 --> 00:58:38.460

Jamie Cole: And it seems like where this is the language that I had suggested the mirror which the cost of many of us are Catholics ventura county facilities will be paid.

396

00:58:38.820 --> 00:58:43.650

Jamie Cole: doesn't answer the question of how it can be paid, it leaves that question for later.

397

00:58:44.130 --> 00:58:50.670

Jamie Cole: Now, we could say the manner by which the cost of any necessary Catholics mention of counting so you still have these will be paid by the county.

398

00:58:51.570 --> 00:58:58.590

Jamie Cole: that's what the city's would like to say, because then the county just has to pay it with the county would like to say is will be paid.

399

00:58:59.070 --> 00:59:07.470

Jamie Cole: You know, jointly or will be divided between the city and the county cities in accounting because they know that all the waste comes from the cities.

400

00:59:07.710 --> 00:59:16.230

Jamie Cole: so effectively that's just saying that they cost exponentially paid by the city's that's obviously they would like to have the city's agreed now to pay for it.

401

00:59:16.470 --> 00:59:20.880

Jamie Cole: The cities are like the county now to agree to pay for it, neither of those things are going to happen.

402

00:59:21.480 --> 00:59:26.970

Jamie Cole: that's why we decided that the issue would not be addressed in the way would be addressed in the master plan.

403

00:59:27.510 --> 00:59:36.930

Jamie Cole: that's why I think the language that I suggested, which is just neutral it doesn't say that the cities are paying for it, it

doesn't say the county's going to pay for it, even though the.

404

00:59:37.290 --> 00:59:46.890

Jamie Cole: statutory obligations with the county so the county should be paying for it i'm not going to advocate that because I know the county would not agree to it, but this is totally neutral language.

405

00:59:47.160 --> 00:59:56.310

Jamie Cole: That doesn't answer that doesn't presuppose the answer to the question which I think is the best way to get this done now to get the momentum going.

406

00:59:56.850 --> 01:00:02.520

Jamie Cole: And then, when we do the master plan, we can address this issue more in the counties are sure that we're going to address the issue.

407

01:00:02.790 --> 01:00:11.460

Jamie Cole: Because the masculine operations is required to address the manner by which the cost of any necessary happens mentioned of county oh so these will be it.

408

01:00:11.910 --> 01:00:24.480

Jamie Cole: This seems to be the only solution that doesn't answer the question favorable to the cities or the county it leaves the issue open, which seems to be the best way to go right now.

409

01:00:25.860 --> 01:00:31.320

Greg Ross: Thank you Jamie and then I have what would I just say may Ryan.

410

01:00:32.610 --> 01:00:43.200

Michael Ryan: So I, I agree with Jamie and I would point out that the idea was to put language and that's neutral it doesn't presuppose the counties language.

411

01:00:44.580 --> 01:00:46.680

Michael Ryan: does in fact presuppose an outcome.

412

01:00:48.720 --> 01:00:55.950

Michael Ryan: How the cost of the capital expand or county own though

they shall be divided among the parties.

413

01:00:57.210 --> 01:00:59.100

Michael Ryan: Upon wind down, you could put a period there.

414

01:01:01.290 --> 01:01:19.650

Michael Ryan: And it wouldn't presuppose anything, how it could be zero could be 100% could be pro rata could be nothing it's when we based on each party's projected usage of the facilities that we are pre supposing a methodology and an outcome as Jamie just pointed out.

415

01:01:21.150 --> 01:01:29.670

Michael Ryan: Similar say the manner by which the cost of any necessary capital expansion of county orange county own facilities will be paid.

416

01:01:30.690 --> 01:01:39.060

Michael Ryan: does not presuppose an outcome doesn't pre suppose a methodology it doesn't say the counties paying all of it or the cities are paying.

417

01:01:40.770 --> 01:01:45.960

Michael Ryan: It seems at once we start to add suggestive language.

418

01:01:47.010 --> 01:01:48.840

Michael Ryan: As to how it should be divided.

419

01:01:50.280 --> 01:01:57.840

Michael Ryan: Whether its usage or pro rata that then we are presuppose we're proposing a political environment that.

420

01:01:58.440 --> 01:02:17.340

Michael Ryan: could be significantly different 40 years from now, including the number of municipalities that actually exist and whether there's consolidation, whether the county Texas over whether there's others and yet we're going to be stuck in an island has these presupposed outcome so.

421

01:02:18.720 --> 01:02:21.150

Michael Ryan: At the same time, what i'm worried about.

422

01:02:22.500 --> 01:02:24.120

Michael Ryan: Is i'm fear that.

423

01:02:25.980 --> 01:02:31.740

Michael Ryan: As was said by Daniel wearing different hats, that if the county attorney's office is not be.

424

01:02:32.370 --> 01:02:40.290

Michael Ryan: With some neutral language like how the cost of capital expansion for county on facilities shall be divided amongst the parties upon wind down.

425

01:02:40.890 --> 01:02:56.370

Michael Ryan: I mean could change Shelton a since it's less suggestive but if i'm not happy with that language and if Jamie says that still problematic, we can put language in here, but I don't want this to be defeated behind the scenes.

426

01:02:57.540 --> 01:03:09.180

Michael Ryan: Because the concern, so I guess the question would be first can the county attorney's office live with what has now been edited.

427

01:03:12.090 --> 01:03:19.980

Michael Ryan: shower will will will be a good work and Jamie does that cause you concern, because then at least we're working with counties suggested.

428

01:03:21.540 --> 01:03:29.610

Jamie Cole: It got to be an object on that may arrive by using the word will be divided, that is pre supposing an outcome.

429

01:03:29.790 --> 01:03:30.870

Michael Ryan: That part is where you.

430

01:03:31.260 --> 01:03:32.880

Jamie Cole: live in County and part we pay by the.

431

01:03:32.880 --> 01:03:33.330

city.

432

01:03:34.860 --> 01:03:35.430

Michael Ryan: The case.

433

01:03:35.520 --> 01:03:43.410

Michael Ryan: I don't know if that's the case will be divided could be zero the division of zero and 100% is not well, I understand your.

434

01:03:43.410 --> 01:03:51.750

Michael Ryan: Concern I me what i'm what I would say is there's a political environment to this and it could very well be that the political pressure put.

435

01:03:51.750 --> 01:04:05.730

Michael Ryan: On the county, as pointed out by mayor tool, you know there's is that and again it deals with scenarios we can't even think of municipalities laughing got consolidated they're not participating, they are fading and.

436

01:04:07.170 --> 01:04:12.300

Michael Ryan: How that gets divided 40 years from now, could be zero and I.

437

01:04:13.530 --> 01:04:16.050

Jamie Cole: understand your concern, I don't know they're pretty suppose.

438

01:04:17.610 --> 01:04:33.810

Jamie Cole: it's not 40 years from now it's going to be in the master plan of operations within the next two years we're gonna have to answer this and by saying, will be divided your pre supposing that the county is not going to be fully responsible for its obligation that are currently has.

439

01:04:34.050 --> 01:04:36.390

Jamie Cole: That the cities are going to have some i'd not.

440

01:04:36.480 --> 01:04:45.450

Jamie Cole: nation, whereas I mean by the same token, it says the county is going to be paying for part of it, because it's divine I think you're just pre supposing an answer that.

441

01:04:45.750 --> 01:04:59.910

Jamie Cole: Right now, I think it's just safer and we can use their language, how the cost of a capital expansion for CAP county on facilities will be paid, I mean just my saying it's divided, you are saying, cities are taking on an obligation that they don't.

442

01:05:00.780 --> 01:05:06.540

Michael Ryan: I don't know that will be paid says it any differently, but this is, this is why this is why you know we as lawyers get.

443

01:05:07.140 --> 01:05:11.850

Michael Ryan: yeah that this group of lawyers, of course, because this is all this.

444

01:05:12.360 --> 01:05:16.170

Michael Ryan: But why lawyers and Wall Street and other white shoe firms get.

445

01:05:16.170 --> 01:05:28.440

Michael Ryan: Paid so much money to harp on commas, and you know whether in house, so I get that but I guess the question is if if we're leaving this to the master plan which is going to be a process.

446

01:05:30.390 --> 01:05:32.820

Michael Ryan: Another wrestling match, if you will.

447

01:05:33.840 --> 01:05:39.060

Michael Ryan: It seems at that point, all that's where they're going to come up with a methodology.

448

01:05:39.450 --> 01:05:51.570

Michael Ryan: And the answer to that you know if this is just These are the things that need to be addressed, how are the costs of expansion for county on facilities be divided amongst the parties when the wind down, and if the answers.

449

01:05:52.170 --> 01:06:05.730

Michael Ryan: they're going to go fight that out, and they may come up with an answer it's not counties going to pay for it all, or it could come back pro rata or it could come back and some other methodology,

but I think this was supposed to be, if I understood correctly, a placeholder wrecked.

450

01:06:07.590 --> 01:06:15.570

Michael Ryan: What the outstanding issues for the master agreement need to address and if it's that I feel more comfortable with the language.

451

01:06:16.290 --> 01:06:26.220

Michael Ryan: That leaves it to that to them to deal with the question is, if you see a you know, an existential threat to the cities and obviously i'm going to go with your.

452

01:06:27.120 --> 01:06:40.950

Michael Ryan: suggestion, because I want to make sure we get it by the cities, but I also at the other hand, I want to hear from matt Matthew that's going to be a problem, so I know mike's rose got his hand up and he's much smarter nice maybe let's hear what he has to say and then circle back.

453

01:06:41.730 --> 01:06:43.500

Greg Ross: Thank you very much Mike cirillo.

454

01:06:43.860 --> 01:06:45.870

Michael Cirullo: I appreciate that I don't think that's.

455

01:06:46.890 --> 01:06:54.510

Michael Cirullo: that's quite sure, but thank you i'm just looking at that language that how the cost will be divided among the parties and matt said something.

456

01:06:55.200 --> 01:07:05.550

Michael Cirullo: Earlier, he mentioned something in maybe he was just it was a stream of consciousness about there might even be a possibility of having to set up in the master plan.

457

01:07:06.060 --> 01:07:16.140

Michael Cirullo: Some other factors, or some subcommittee or something like that those are all options that could be addressed with with dealing on how something's going to be divided.

458

01:07:18.390 --> 01:07:27.750

Michael Cirullo: You know, I think that that language is closer, I can see jamie's concerned, but I think the language closer to to allowing that flexibility.

459

01:07:28.440 --> 01:07:43.770

Michael Cirullo: Without saying that the cities are paying because it could be divided once we answer 711919293 it could lead to an answer to nine three it doesn't result in a division at all.

460

01:07:44.880 --> 01:07:53.670

Michael Cirullo: But again, it doesn't require a line in the sand, I think so blatantly to be drawn today, which I think is important.

461

01:07:57.120 --> 01:07:57.810

Greg Ross: Thank you Mike.

462

01:07:59.100 --> 01:07:59.820

Greg Ross: i've got.

463

01:08:01.140 --> 01:08:01.770

Greg Ross: matt.

464

01:08:03.180 --> 01:08:05.730

Mary Lou Tighe: Mr chair it's it's Kevin and Daniel.

465

01:08:06.210 --> 01:08:08.940

Greg Ross: i'm sorry, my apologies Kevin.

466

01:08:10.530 --> 01:08:20.910

SWRS: Yes, thank you and first was for a matter of clarification, you know when we talk about the county's statutory obligation, the county statutory obligation is to provide capacity.

467

01:08:21.660 --> 01:08:31.440

SWRS: There is nothing in the Statute that requires us to pay for it just is to provide the capacity and as they mentioned before, that can be done through contracting.

468

01:08:31.980 --> 01:08:40.290

SWRS: With you know outside the county or with another state, you know and shipping it off at all different calls, however, in the spirit of of.

469

01:08:40.830 --> 01:08:49.230

SWRS: collegial partnership here, where we are trying to come up with a scenario where we're taking care of our own, and I think that's The goal of this group here.

470

01:08:49.980 --> 01:08:59.280

SWRS: So that's so I just want to be clear, this is not a cost shifting where the cash trying to transfer some costs all we're trying to do is protect against.

471

01:08:59.640 --> 01:09:06.300

SWRS: If there are additional costs that were the sole bear of it if there's others that are sharing in it there's nobody else sharing it it's going to be the county's box.

472

01:09:07.860 --> 01:09:19.140

SWRS: If nobody else is using those services That being said, I do like to pick up on where mayor Ryan left off, and you know, unless matter a valuable.

473

01:09:19.620 --> 01:09:28.080

SWRS: countermand me here I, I believe, if we can say that how the the cost will be divided that language.

474

01:09:28.770 --> 01:09:37.530

SWRS: That, I think that shows that it will be addressed and how much dress that's for another day and that's all this line just supposed to be is.

475

01:09:37.740 --> 01:09:47.820

SWRS: Is an acknowledgement that it will be shared it's not intended to be an insurance policy it's not intended to be a transfer costs, all it is is acknowledgement that there may be costs.

476

01:09:48.120 --> 01:10:00.960

SWRS: And in that event, those costs will somehow be share and and it's just that acknowledgement that that'll be addressed in the master plan out shared there's different mechanisms that can be shared.

477

01:10:01.740 --> 01:10:08.850

SWRS: You know I, as I mentioned before, it could be done through increased tippett visa could be done through assessment, it could be done a variety of different ways.

478

01:10:09.300 --> 01:10:19.410

SWRS: But that's for a later day because we understand that we did not that the Soviets were did not want to address this in the La and we respect that and that's why we're trying to come up with this.

479

01:10:19.770 --> 01:10:25.770

SWRS: language, but it does have to have the acknowledgement that the county is not the loan financial.

480

01:10:28.290 --> 01:10:28.980

SWRS: backstop.

481

01:10:29.940 --> 01:10:31.860

SWRS: felt the further for the rest.

482

01:10:32.250 --> 01:10:34.260

Greg Ross: And there you go and Daniel please.

483

01:10:34.920 --> 01:10:35.820

Nathaniel Klitsberg: Thank you.

484

01:10:37.050 --> 01:10:50.340

Nathaniel Klitsberg: Everything that Kevin just said was going to be part of what I was saying, a mayor, I think that you come up with in terms of how the cost of.

485

01:10:50.940 --> 01:11:01.500

Nathaniel Klitsberg: The capital expansion or how the cost of capital expansion of county facilities will be divided between the parties period.

486

01:11:01.920 --> 01:11:14.400

Nathaniel Klitsberg: No reference to a pro rata share no reference to based on usage it that will be the decision for the policymakers, who

are evaluating language for the the master plan.

487

01:11:15.810 --> 01:11:23.280

Nathaniel Klitsberg: And I think that that addresses in large part, the concern and you know we all live to address.

488

01:11:24.060 --> 01:11:33.840

Nathaniel Klitsberg: It another day, and you know there won't be a situation where and again you're absolutely right, it could wind up that it's 100% or zero percent.

489

01:11:34.380 --> 01:11:40.500

Nathaniel Klitsberg: or it could wind up that it's 5050 or could wind up that it's pro rata or it could wind up with you know I.

490

01:11:41.160 --> 01:11:49.230

Nathaniel Klitsberg: don't know not whole scenario where the first X dollars of the of the expansion is the county's costs and then it's shared and then it's.

491

01:11:49.530 --> 01:12:02.640

Nathaniel Klitsberg: The county again after a certain amount it just leaves that issue open once we have a better understanding of what it is the authority is going to do, and what the potential risks associated with the.

492

01:12:03.690 --> 01:12:07.590

Nathaniel Klitsberg: The operations of the authority and what would happen on white down.

493

01:12:09.570 --> 01:12:29.460

Nathaniel Klitsberg: will be known to the parties so, and again I am just a lawyer on this, but I think that the language that you came up with certainly addresses that concern in a new way and leaves the the how it's to be done a to those that are going to be creating our master plan.

494

01:12:31.080 --> 01:12:33.570

Greg Ross: Thank you, Daniel and i've got Jamie.

495

01:12:35.220 --> 01:12:42.060

Jamie Cole: Just so things are clear on you know, this is obviously a policy decision and and we're just lawyers but.

496

01:12:42.570 --> 01:12:58.440

Jamie Cole: The this meeting is being recorded, so what is said, is going to be the intense or evidence of intent and what Kevin said was very clear, they want the county wants to work divided, because they wanted an acknowledgement that this cost is going to be shared.

497

01:13:00.360 --> 01:13:10.560

Jamie Cole: The city's up to this point, do not have this obligation so by saying the word divided, it could just as easily be will be shared that saying the same thing.

498

01:13:10.800 --> 01:13:11.010

Michael Ryan: All right.

499

01:13:12.690 --> 01:13:20.220

Michael Ryan: hey let me Jamie let me interrupt Just look, I support I think we're headed what you said, will be paid that's.

500

01:13:21.600 --> 01:13:24.450

Michael Ryan: Right i'm okay with and I support will be paid.

501

01:13:24.960 --> 01:13:25.530

Michael Ryan: Right among.

502

01:13:26.910 --> 01:13:37.020

Jamie Cole: By saying will be paid That means it could be paid all by the city's it could be paid all by the county it could be shared we're not deciding that issue today.

503

01:13:37.830 --> 01:13:52.020

Jamie Cole: Now, if we want to use the word divided or shared we are deciding the issue that that's what it's going to say so, if that's what the policymakers want to do that's that's fine, but I think it should just be very clear that that's what you're doing if you say.

504

01:13:52.140 --> 01:13:58.590

Michael Ryan: I didn't I don't agree with that Jamie I want to make it clear, for the record that even my language will be divided it.

505

01:13:58.650 --> 01:14:09.930

Michael Ryan: I am not acknowledging that the cities are paying a single thing a division of zero and 100 is okay with me, but I understand your point that this legislative history, if you will.

506

01:14:10.320 --> 01:14:19.530

Michael Ryan: will be interpreted that that's what the county intended by using divided I don't see it that way, but I would accept will be paid among the authorities.

507

01:14:21.720 --> 01:14:27.960

Greg Ross: And, and I think again that's a hybrid between everyone's consideration.

508

01:14:29.910 --> 01:14:31.500

Greg Ross: So matt can you.

509

01:14:32.820 --> 01:14:35.100

Greg Ross: describe that if you would.

510

01:14:36.720 --> 01:14:43.080

Greg Ross: so that everyone can see it visually and then i'll have nathaniel comment.

511

01:14:43.320 --> 01:14:52.080

Jamie Cole: will be paid period and you don't really I mean you don't need a monk, by the way, let me, let me see a different way, you could do it if you really want the county will insist on the word divided.

512

01:14:52.710 --> 01:14:59.130

Jamie Cole: You could say use the word divided, but maybe at the end, but in parentheses which division may be.

513

01:14:59.640 --> 01:15:09.660

Jamie Cole: 100% county zero cities or you know one or 10 cities zero county or some sharing and put it in parentheses, to make it clear that it could be any of those three.

514

01:15:10.200 --> 01:15:20.040

Jamie Cole: Then, then I think it would you know, then there would be no question, I think that would be fine if you really counting billing system were divided, so long as we put in the paradoxical.

515

01:15:20.220 --> 01:15:26.250

Jamie Cole: making it clear that that division may it's in which you want to write that down math so we can just have it.

516

01:15:26.340 --> 01:15:39.630

Matthew Haber: I don't think the county will agree to that as Daniel said before we can, if the working group tells us, this is what the draft is going to be then that's how I describe it, but I, you know.

517

01:15:39.750 --> 01:15:40.350

Matthew Haber: At some point.

518

01:15:42.600 --> 01:15:42.930

Michael Ryan: Well, I.

519

01:15:43.860 --> 01:15:49.230

Michael Ryan: i'd rather hear first account position on will be paid, or whether be paid is sufficient.

520

01:15:49.620 --> 01:15:49.860

Michael Ryan: If it.

521

01:15:50.580 --> 01:15:52.020

Matthew Haber: has so many different scenarios that.

522

01:15:52.020 --> 01:15:52.560

Michael Ryan: I don't know.

523

01:15:53.460 --> 01:15:57.780

Matthew Haber: Sure um so look if we want to say will be paid among the parties that.

524

01:15:57.990 --> 01:16:08.130

Matthew Haber: that's fine if we're just saying will be paid, then you know again what we're what we're hearing is the goalposts are being moved on the county they're being moved on the county.

525

01:16:08.430 --> 01:16:18.780

Matthew Haber: Within the course of this single negotiation with the same players, I cannot imagine how much the goalposts will be moved over the course of decades we.

526

01:16:19.350 --> 01:16:33.270

Matthew Haber: are asking, because we are giving up significant control right right now the county has a certain leverage to ensure that it is able to competently needed statutory obligation.

527

01:16:34.680 --> 01:16:41.880

Matthew Haber: We are now talking about entering into an agreement where the county is giving up that ability to ensure its.

528

01:16:42.270 --> 01:16:48.270

Matthew Haber: meeting its statutory obligation we are likely going to give it up to an entity that is not controlled by the county.

529

01:16:49.080 --> 01:17:00.510

Matthew Haber: And so, all we are saying is that if, in order to ensure that we can meet that statutory obligation which requires us to provide a vital public health service.

530

01:17:01.020 --> 01:17:16.230

Matthew Haber: On wind down that we have a way to ensure that it is not all on us because we're no longer the ones fully in control for giving up the driver's seat, then, then the liability associated with being in the driver's seat needs to be shared as well.

531

01:17:17.580 --> 01:17:24.090

Matthew Haber: And so you know I think if we just do will be paid again we're in the same universe, we were talking about before.

532

01:17:24.690 --> 01:17:31.410

Matthew Haber: The county wanted this in the iowa we wanted to have some way of saying look if we're giving up control.

533

01:17:32.370 --> 01:17:40.110

Matthew Haber: Then we also shouldn't be the lone financial backstop and in principle that that was agreed to by this working group and.

534

01:17:40.800 --> 01:17:52.020

Matthew Haber: So we're doing that and now what i'm hearing is not only will it not be in the ios but there's no guarantee that it will be in the master plan so again we're not saying that this has to be.

535

01:17:53.490 --> 01:18:05.160

Matthew Haber: we're not we're not even saying pro rata we're not talking about a mechanism and what we can do is say that there will be joint cost recovery, you know mix yellow picked up on this it wasn't a stream of consciousness.

536

01:18:05.460 --> 01:18:14.700

Matthew Haber: We can put in here saying that there will be procedures to say how the necessity, will be jointly determined for some of these things right, so there are conditions precedent.

537

01:18:15.150 --> 01:18:25.500

Matthew Haber: On these decisions that are not just fully the counties, but if what i'm hearing is well this still might be 100% on the county.

538

01:18:26.070 --> 01:18:46.260

Matthew Haber: In the master plan, then why, why did we ever agree that the county wouldn't be the one to be the hundred percent financial backstop right that that's what i'm hearing, so if that's the case you know either we share the responsibility and we share the consequences of that of that responsibility.

539

01:18:48.870 --> 01:18:59.040

Matthew Haber: Or the county should just have the ability to truly be a financial backstop bright if that's really where we're going that the fountain the county might be a financial backstop.

540

01:18:59.370 --> 01:19:05.100

Matthew Haber: Maybe the county should just be able to get all of the assets of the authority free and clear.

541

01:19:05.580 --> 01:19:13.980

Matthew Haber: On wind down because it's going to be the financial backstop it should have the ability, just to get those things without paying any access because me and current costs anyway.

542

01:19:14.550 --> 01:19:23.160

Matthew Haber: But, again, I feel like we're stuck in this place where the county is being forced to be responsible for things it has no control.

543

01:19:25.350 --> 01:19:28.080

Greg Ross: Thank you matt i've gotten nathaniel followed by Kevin.

544

01:19:29.220 --> 01:19:36.270

Nathaniel Klitsberg: I was just gonna say that I again agree with the suggested language for mayor Ryan, you know I don't have a problem with paid.

545

01:19:36.690 --> 01:19:37.530

Nathaniel Klitsberg: Because it is.

546

01:19:38.070 --> 01:19:47.670

Nathaniel Klitsberg: You know, between or among as as whichever will be grammatically correct and I will defer to Commissioner glassman on that uh you know between or among the parts.

547

01:19:48.420 --> 01:20:02.940

Nathaniel Klitsberg: And, as he indicated previously that could be when the parties are discussing the master plan zero percent 100% 1% 99% any of the million permutations of.

548

01:20:03.840 --> 01:20:15.930

Nathaniel Klitsberg: You know, paid between and among the parties will be what's going to be discussed at that point, based on the facts on the ground in terms of what it is, if the word, he is going to be doing and what those.

549

01:20:16.950 --> 01:20:23.580

Nathaniel Klitsberg: You know what the potential scenarios, under which the county would be eating to expand its CAP.

550

01:20:28.080 --> 01:20:29.910

Greg Ross: Rather than you you're breaking up.

551

01:20:31.440 --> 01:20:37.140

Nathaniel Klitsberg: i'm sorry i'm in the middle of rural Illinois so again i'll just say I agree with mayor Ryan.

552

01:20:40.350 --> 01:20:42.480

Greg Ross: Thank you will quote you on that.

553

01:20:43.770 --> 01:20:47.220

Michael Ryan: i'm not sure I want to be quoted now that somehow.

554

01:20:49.650 --> 01:20:52.590

Michael Ryan: Jamie said now it's like mayor ryan's want to blame for this.

555

01:20:54.930 --> 01:20:59.970

Greg Ross: No one to blame we're all in this together at, ladies and gentlemen, let's not forget that.

556

01:21:00.210 --> 01:21:03.030

Mary Lou Tighe: chair Ross you have an haven't followed by Jamie.

557

01:21:03.570 --> 01:21:04.530

Greg Ross: Thank you Kevin.

558

01:21:06.900 --> 01:21:19.770

SWRS: I will echo what Daniel said, and not as a point of blank but the point of trying to bring us together, I will say I agree with the language change from my arrive as well to will be paid among the parties.

559

01:21:20.610 --> 01:21:32.280

SWRS: You know, but I, I will also go on record, just as Mayor Ryan did, and I understand he's saying that he'd be okay, with it being the zero percent for the city and alarm set for the county.

560

01:21:33.180 --> 01:21:47.970

SWRS: You know, just to be on the record, you know the county would be looking for some sharing of the costs if you know they're using i'm going to say that for another day but i'm just putting that on the record as well tues that we wouldn't we're not agreeing to the zero hundred percent.

561

01:21:51.990 --> 01:21:59.820

Greg Ross: I understand what you say, I do not agree with what you say, but I will move on to.

562

01:22:01.560 --> 01:22:03.120

Greg Ross: i'm sorry Mary Lou.

563

01:22:04.260 --> 01:22:04.710

Mary Lou Tighe: Jamie.

564

01:22:05.280 --> 01:22:06.180

Greg Ross: Oh, thank you Jamie.

565

01:22:06.930 --> 01:22:21.120

Jamie Cole: Thank you me, I just you know one thing always worries me, as a lawyer, as we write down words and different people think it means different things, so when the Daniel said he agreed with my brian's words.

566

01:22:21.930 --> 01:22:34.800

Jamie Cole: I think he agrees with them the way he interprets them, which is not necessarily the same way Mike is interpreting them or I would interpret them me right now, it says will be paid among the parties upon wind down.

567

01:22:35.730 --> 01:22:42.810

Jamie Cole: Now I think when Mike Ryan was speaking he interpreted that to include the possibility of the county paying 100%.

568

01:22:43.500 --> 01:22:51.960

Jamie Cole: Whereas I think that nathaniel's interpreting that when it says among the parties that means that the cities, or at least paying something and I think that is the problem.

569

01:22:52.590 --> 01:23:02.940

Jamie Cole: I think the city's want this language to be clear that one of the possibilities that will be discussed when we work on the master plan.

570

01:23:03.210 --> 01:23:14.670

Jamie Cole: Is no cost sharing that the county is not the backstop during the 30 or 40 or 50 years that the authority exists, but after this is over.

571

01:23:15.120 --> 01:23:25.050

Jamie Cole: There in this basically the same position they're in today that the cities have not taken on any new obligation Now it may be that the cities, when we get the master plan will agree to something different.

572

01:23:25.530 --> 01:23:35.910

Jamie Cole: But we don't want to presuppose that and I don't want to come up with language here that the county things means one thing in the cities things mean something else which is, I think, where we are right now.

573

01:23:36.510 --> 01:23:46.680

Jamie Cole: I think if the language is ends it paid just will be paid period not among the parties have one that's just how the cost of capital expansion mechanics those will be paid period.

574

01:23:47.790 --> 01:23:56.400

Jamie Cole: That way, leaves open the ability for the county to argue that there should be cost sharing it leaves open the ability for the cities that there should not be cost sharing.

575

01:23:56.850 --> 01:24:03.300

Jamie Cole: And that issue will remain open for discussion of the master plan I i'm just concerned that.

576

01:24:03.690 --> 01:24:10.890

Jamie Cole: The county is trying to put in language that they're going to come back and we work on the master plan and tell know you've already agreed among the parties.

577

01:24:11.370 --> 01:24:15.930

Jamie Cole: means that there's some sharing and that is how this language is going to be.

578

01:24:16.440 --> 01:24:22.380

Jamie Cole: utilized and and I think the county has made it very clear

that their position is there has to be cost sharing.

579

01:24:22.800 --> 01:24:30.780

Jamie Cole: And they'd like that they originally wanted that in the La now they'd like in the I lay it to say that the master plan will say there's going to be cautionary.

580

01:24:31.410 --> 01:24:46.830

Jamie Cole: And the city's don't want to answer that question now they want to put that issue off for the master plan and the only way to do that is to end this and pay, we need a period there no among the parties upon wind down, I mean that's The way I see this.

581

01:24:47.130 --> 01:24:48.660

I I.

582

01:24:50.160 --> 01:24:55.980

Michael Ryan: I would hope Jamie you're not suggesting that if the language does survive this.

583

01:24:56.580 --> 01:25:18.600

Michael Ryan: In the form among the parties that if that ends up being that you, you are not conceding are you that that means is cities are obligated to pay any shit you would say I think if this was language imposed upon us and he would say how includes zero correct.

584

01:25:19.110 --> 01:25:35.100

Jamie Cole: I wouldn't say that and I guarantee you that the county will come back and they'll have this this video or this recording and based on things that Daniel said and Kevin said and matt said, they will say when we send them on the parties that's what we met so.

585

01:25:35.880 --> 01:25:37.020

Jamie Cole: If we wanted to, but then.

586

01:25:37.020 --> 01:25:44.220

Jamie Cole: If we wanted if we wanted to include the possibility of zero from the city's let's just put a parent that article at the yeah which.

587

01:25:44.280 --> 01:25:56.580

Michael Ryan: which may which you're not you're Jamie Jamie you're not saying, and I hope that's not the record here that if among the party survives that that does not include zero.

588

01:25:57.180 --> 01:26:06.690

Michael Ryan: I mean I don't really care what the lawyers say is the intent the party's intent it's going to be what this says what is.

589

01:26:07.380 --> 01:26:14.310

Michael Ryan: content may not mean a thing in this it's going to be, how will be paid among the parties could include zero or not at all.

590

01:26:14.610 --> 01:26:20.640

Michael Ryan: I would never concede that that among the parties means that we're agreeing to say anything, and I want to make it clear now shut up.

591

01:26:21.060 --> 01:26:34.890

Michael Ryan: Right my by me even say by me even suggesting will be paid among the party I am not conceding that cities are paying anything whatsoever that is not my intent what it is, is, I will be happy to leave that to another day.

592

01:26:35.250 --> 01:26:39.480

Michael Ryan: For the parties to decide whether there's any sharing at all and that's a how.

593

01:26:40.440 --> 01:26:44.760

Jamie Cole: If the county agrees that the among the parties could mean zero.

594

01:26:44.790 --> 01:26:45.750

For the city's.

595

01:26:47.010 --> 01:27:00.180

Jamie Cole: i'd like them to put that on the record, saying that if we're going to have this language that that's what means I know I would rather it be clear, because I know that this issue will come up in the future, when people just see this language and they'll listen to the tape.

596

01:27:00.990 --> 01:27:08.010

Jamie Cole: I would either singer the pay period or at the end after among the parts one I put in parentheses, which may include.

597

01:27:08.220 --> 01:27:17.910

Jamie Cole: You know all pay by the city or pay by the counties or some sharing that way there's no question, I know Marilyn you think the language includes that.

598

01:27:18.540 --> 01:27:27.390

Jamie Cole: I know that Daniel and Kevin said they think it does not include the zero for the cities, so I think there is a disagreement as to what this language means.

599

01:27:27.480 --> 01:27:28.170

Michael Ryan: Oh, I don't.

600

01:27:29.880 --> 01:27:35.580

Michael Ryan: Listening if you're going to put a placeholder to say it needs to be decided in the future, or whatever it's going to say.

601

01:27:35.940 --> 01:27:49.740

Michael Ryan: And you're trying not to presuppose it I don't know the pain among the party presupposes that and I guarantee you that if we got stuck with this line with you as an amazing advocate would argue the literal words as they're written allows them to decide how to.

602

01:27:49.770 --> 01:27:50.790

Greg Ross: divide it and that.

603

01:27:50.970 --> 01:27:54.120

Michael Ryan: could include zero did not right.

604

01:27:54.480 --> 01:27:54.780

Jamie Cole: well.

605

01:27:54.810 --> 01:27:56.400

Michael Ryan: it'll be a lot easier for me to order.

606

01:27:56.430 --> 01:28:03.960

Michael Ryan: When all this intent of what the warrior side of my wife, why would you can see that, on this record they're not going to.

607

01:28:05.070 --> 01:28:06.210

Greg Ross: Great including.

608

01:28:06.210 --> 01:28:07.380

Michael Ryan: Zero so.

609

01:28:07.560 --> 01:28:08.040

Greg Ross: don't miss.

610

01:28:10.290 --> 01:28:10.770

Greg Ross: It seemed like.

611

01:28:11.280 --> 01:28:12.990

Michael Ryan: Not because environment.

612

01:28:14.610 --> 01:28:28.320

Michael Ryan: we're negotiating this in an environment that doesn't make sense if i'm going to hear that that the language of the Lord or spoken here is going to survive some sort of legislative intent, then this season just go back and let them fight it out, but I don't agree to any of that.

613

01:28:29.340 --> 01:28:31.410

Greg Ross: I appreciate that I have nathaniel.

614

01:28:31.530 --> 01:28:34.140

Greg Ross: And then, I have a comment nathaniel.

615

01:28:38.640 --> 01:28:42.540

Nathaniel Klitsberg: And I apologize if the signal is for again.

616

01:28:43.650 --> 01:28:47.220

Nathaniel Klitsberg: I, I think that I was very clear earlier.

617

01:28:48.330 --> 01:28:58.200

Nathaniel Klitsberg: That the between or among the parties, I do have

a technical issue about the the phrase upon wind down which I don't think anyone will disagree with.

618

01:28:59.010 --> 01:29:08.790

Nathaniel Klitsberg: Because I don't know if the payments are going to be, you know, whatever the relationship is and whatever the division is if there is a division, whatever the division would be.

619

01:29:09.300 --> 01:29:18.480

Nathaniel Klitsberg: it's going to be paid upon wind down, but we could deal with the upon wind down a little bit separately up my only point is that.

620

01:29:20.160 --> 01:29:27.510

Nathaniel Klitsberg: Between or among the parties leaves for another day the parties to decide.

621

01:29:28.560 --> 01:29:36.540

Nathaniel Klitsberg: Whatever the percentage is going to be you heard from Kevin who says that, at that point, it will you know it may very well be.

622

01:29:37.290 --> 01:29:47.100

Nathaniel Klitsberg: That, if you know someone were to suggest that the county pay 100% that if he's asked his opinion by county administration and by the board that he certainly would not recommend that.

623

01:29:47.790 --> 01:29:54.750

Nathaniel Klitsberg: I probably wouldn't either, if I were asked but i'm not going to be asked, because I don't negotiate business terms but.

624

01:29:55.650 --> 01:30:14.190

Nathaniel Klitsberg: Between or among the parties is intended to put off for another day, whatever the percentage is going to be and decided by the people who are negotiating that term at that time um you know I just disagree with how how Jamie has framed it in terms of.

625

01:30:16.290 --> 01:30:24.720

Nathaniel Klitsberg: How the legal language is going to be interpreted, I agree, again with what they are Ryan has suggested in

terms of how that language.

626

01:30:25.230 --> 01:30:30.990

Nathaniel Klitsberg: can be interpreted and should be interpreted when the master plan is being negotiated.

627

01:30:31.590 --> 01:30:43.770

Nathaniel Klitsberg: And again, you know we're not trying to the lawyers are not trying to force upon anybody whether it's the attorneys for the county or the attorneys for the sister cities, forcing upon anybody the language that's going to be you.

628

01:30:44.550 --> 01:30:53.640

Nathaniel Klitsberg: We will, at the end of the day, draft what's requested and then make the recommendations to our respective clients, as to whether or not they should agreed to it or not.

629

01:30:54.810 --> 01:31:04.590

Nathaniel Klitsberg: The language as it sits right now, even with mayor ryan's suggestion is certainly not the language that the county had requested originally in connection with this.

630

01:31:05.100 --> 01:31:18.570

Nathaniel Klitsberg: But it is language that we can live with, at this point that still is the you know we may get what the heck's from our clients, but hopefully not something more significant and I don't know how much clearer I could be on that point.

631

01:31:19.800 --> 01:31:22.770

Greg Ross: I appreciate that and it does clarify Kevin.

632

01:31:25.530 --> 01:31:41.370

SWRS: If I can just you know we've we've kind of made this proverbial horse for the last hour and 40 minutes, but how we got here was that the needs some form of the acknowledgement.

633

01:31:42.930 --> 01:31:47.430

SWRS: That you know that you know that wasn't fair for the county to be the sole financial backstop.

634

01:31:48.120 --> 01:31:55.230

SWRS: And and that's that's where this is came out that's what this language came out of I know there was there was a couple of.

635

01:31:55.650 --> 01:32:11.760

SWRS: Salaries Working Group members and mentioned that they may Russia even mentioned that you know it's not intended to be fair, so that's all this language is supposed to do is to pull off for another day the the you know the conditions on how that is going to be handled.

636

01:32:12.780 --> 01:32:21.150

SWRS: Now that that's one point that being said, now, you know, I know, on the record that you know may arrive with on there it's you know he's not conceding it.

637

01:32:21.390 --> 01:32:28.980

SWRS: That being 100% of the county costs, likewise the county's not conceding that is good not going to be 100% you know.

638

01:32:29.250 --> 01:32:36.360

SWRS: paid by the cities or some other mechanism and that's what I don't want to avoid that there's other ways of dealing with this, which is being a cost.

639

01:32:37.170 --> 01:32:49.590

SWRS: To the city or the county I mean again, you can adjust it through tipping fees are having you know assessments out there, so that's you know I think the the language as.

640

01:32:51.480 --> 01:32:52.980

SWRS: As the Daniel indicated.

641

01:32:54.330 --> 01:33:07.980

SWRS: You know, will be paid among the party wind down doesn't leave it for another day and I think the parties have been you know clear on our respective positions, but again I want to draw us back to the whole reason for us to do this was.

642

01:33:08.910 --> 01:33:16.860

SWRS: You know that the county was not be the sole financial backstop and I think that's the lens that this needs to be viewed with them.

643

01:33:17.610 --> 01:33:20.520

Greg Ross: And I appreciate that and let me just say.

644

01:33:20.850 --> 01:33:30.810

Greg Ross: When you look at will be paid among the parties as long as that doesn't prohibit a zero or 100 it doesn't Gray, but anything.

645

01:33:31.170 --> 01:33:38.640

Greg Ross: It means it permits us to negotiate whatever you want, and if it's from zero to 100 and you can.

646

01:33:39.180 --> 01:33:54.300

Greg Ross: But that's to be done a another day, this is livable by the county i'm living, you know it's livable by me as far as the city goes in regards to it's good for the La it's good to move it forward.

647

01:33:54.990 --> 01:34:03.600

Greg Ross: And it does not say anything prohibiting from you know, on both sides it's equal, so I like that.

648

01:34:04.620 --> 01:34:11.580

Greg Ross: Having said that, i'm going to be calling for a consensus very shortly, but Jamie I thought I saw your hand up and then I did.

649

01:34:12.060 --> 01:34:18.780

Jamie Cole: Okay, no matter look I, I think the language is ambiguous as it's written, I think it can be read either way.

650

01:34:20.220 --> 01:34:22.770

Jamie Cole: I don't like drafting things that are ambiguous.

651

01:34:24.120 --> 01:34:37.590

Jamie Cole: If the if there's a clear agreement among the parties that will be paid among the will be paid among the parties have online down means it could be 100 zero or 01 hundred.

652

01:34:39.360 --> 01:34:40.560

Jamie Cole: Why don't we just say that.

653

01:34:41.220 --> 01:34:43.200

Jamie Cole: I mean, then, you want to anyone include.

654

01:34:43.530 --> 01:34:45.870

Greg Ross: You want to include a in a.

655

01:34:45.900 --> 01:34:47.070

Jamie Cole: Apparently radical.

656

01:34:47.100 --> 01:34:57.780

Jamie Cole: Right apparent that article, which says, which may be, you know which which may include the county paying all of it which may include the city's paying all of it or which may include you know some sharing.

657

01:34:59.100 --> 01:35:08.370

Jamie Cole: If that's what is intended, which it sounds like it is, I assume that that you'll you shouldn't have any problem with that, because that's what you're intending to mean by this.

658

01:35:08.610 --> 01:35:22.050

Jamie Cole: Now, if you mean something else, well then, then let us know if that I just don't want there to be any question that that's what this means that it can be you know 100% by the cities or one of them by the counties or some sharing.

659

01:35:22.350 --> 01:35:39.120

Greg Ross: Then let me ask our wonderful scribe matt Haber to go ahead include that language so we all can see, because in a moment i'm going to ask for a consensus and then i'm going to be moving on to the waist generation study is we are limited in time.

660

01:35:41.040 --> 01:35:44.220

Jamie Cole: Language the language would be printed parentheses.

661

01:35:44.610 --> 01:35:53.070

Matthew Haber: Jamie on a second may Ross from the county's perspective that's the same as a whether you know we're back to where we were an hour ago well.

662

01:35:53.340 --> 01:35:56.520

Jamie Cole: Then there's not consensus on what this language means matt.

663

01:35:56.670 --> 01:35:58.020

Matthew Haber: I agree with you Jamie.

664

01:35:59.070 --> 01:36:00.450

Matthew Haber: Look here here's.

665

01:36:00.480 --> 01:36:07.500

Michael Ryan: What what why, why is there not consensus that, though, what this language means is we're going to decide this and other day and.

666

01:36:07.530 --> 01:36:12.180

Jamie Cole: I would later become either because matt matt and Mike matt is saying.

667

01:36:12.360 --> 01:36:16.980

Jamie Cole: That this language cannot mean 100% paid by the county.

668

01:36:19.260 --> 01:36:27.840

Jamie Cole: I you know you view it could be 100 zero man Hebrews not saying that that's not what he thinks it means that that's what the problem is.

669

01:36:28.410 --> 01:36:28.740

But I.

670

01:36:30.030 --> 01:36:34.740

Michael Ryan: thought I heard her either Kevin or the thing that that is a concession that that's.

671

01:36:34.740 --> 01:36:35.460

Michael Ryan: for another day.

672

01:36:35.520 --> 01:36:42.690

Michael Ryan: Matthew are you saying that there's no way that that's the interpretation, because if that's the case, and you know this is this is kind of a ridiculous argument we're never gonna.

673

01:36:43.320 --> 01:36:45.180

Matthew Haber: you're not going to agree to a footnote that says.

674

01:36:46.650 --> 01:36:50.160

Matthew Haber: I see that Kevin's hand is up, I have a sense that he wants to address this.

675

01:36:50.760 --> 01:36:58.530

Greg Ross: Okay, and that I can appreciate I do want to get to the waist generation study gentlemen so i'm telling you now we've got four minutes left on this issue.

676

01:37:01.320 --> 01:37:02.910

Greg Ross: who's it meant that you want to.

677

01:37:04.050 --> 01:37:05.340

Greg Ross: Kevin excuse me Kevin.

678

01:37:05.910 --> 01:37:09.540

SWRS: i'll fail, of the first day on first and i'll clean up.

679

01:37:10.050 --> 01:37:11.280

Greg Ross: Thank you, Daniel.

680

01:37:15.720 --> 01:37:24.090

Nathaniel Klitsberg: Thank you, Mary Ross I think that the parents medical is problematic because there are other scenarios, rather than just a sliding scale of percentage.

681

01:37:25.680 --> 01:37:27.480

Nathaniel Klitsberg: You know there's been discussion about.

682

01:37:29.550 --> 01:37:42.360

Nathaniel Klitsberg: The fact that there could be outside funding, there could be other scenarios of assessments, there could be situations where it's tipping fees it's not just a sliding scale between 01 side, on the other, and 100 the other side and zero the first.

683

01:37:43.320 --> 01:37:46.830

Nathaniel Klitsberg: My personal My personal view is that the language means.

684

01:37:47.970 --> 01:37:59.880

Nathaniel Klitsberg: Anything i'll defer to Kevin if you've used it differently from the from the business end but, again, my view is the language among the parties, then just leaves it to be addressed.

685

01:38:00.900 --> 01:38:09.540

Nathaniel Klitsberg: When we get to the master plan and however it's going to be addressed, it will be addressed at that point, and if there's consensus at that point that it means exit means Apps.

686

01:38:10.260 --> 01:38:15.900

Nathaniel Klitsberg: And that could be any set of scenarios, I think that by putting a parent that article that says.

687

01:38:16.320 --> 01:38:27.240

Nathaniel Klitsberg: You know, which could be between zero percent from the county and 100% from the cities to 100% from the county and zero percent from the city's presupposes that all we're talking about is a sliding scale of.

688

01:38:28.740 --> 01:38:43.530

Nathaniel Klitsberg: Only vote, you know only those scenarios and again i'll defer to Kevin on on anything further I think again mayor ryan's you know suggested language leaves the issue to be addressed in the future.

689

01:38:44.640 --> 01:38:49.170

Greg Ross: Thank you, Dan Kevin you've got 30 seconds go.

690

01:38:49.590 --> 01:38:57.870

SWRS: And just and the thing i'll touch on a couple points eyes, I was gonna say the parents would make it we kind of have a sliding scale to pre supposing.

691

01:38:58.860 --> 01:39:13.290

SWRS: I do agree that that those are the options, however, I will tell you I don't see any scenario where the county's good Green to 100%

know what the city's agree to 100%, I think, and I trust that there's going to be in a.

692

01:39:13.680 --> 01:39:20.730

SWRS: partnership that will be able to resolve these issues, but you know I don't want to make it limited to those to those.

693

01:39:21.030 --> 01:39:26.580

SWRS: Certain ones that are in the parents edible and then that's where it becomes problematic The other thing that I need to.

694

01:39:26.970 --> 01:39:35.670

SWRS: express that because it will be shared, but you know when doing briefings with the Commissioners and and Commission refer, in particular, is that.

695

01:39:36.270 --> 01:39:41.040

SWRS: You know kicking the can down the road puts the county Commission in a bad position where.

696

01:39:41.520 --> 01:39:45.810

SWRS: You know if if this could be maintained that the county is going to be the hundred percent backstop.

697

01:39:46.230 --> 01:39:50.400

SWRS: Then we're going to be in a bad position two years from now, to stop this.

698

01:39:50.730 --> 01:40:01.800

SWRS: process or not joined up at that time, and it will it will die on the vine two years from now, and I don't think anybody wants that i'm being very totally transparent up front that.

699

01:40:02.100 --> 01:40:14.910

SWRS: You know, at the end of the day, you know we're looking for some sort of sharing based on on usage and I know we're not presupposes that this language is broad enough to allow us to go forward with that point.

700

01:40:15.690 --> 01:40:24.330

SWRS: I understand the first salvo from the city side is going to say

1% county but you know I believe reasonable minds will come up with a deal.

701

01:40:26.610 --> 01:40:27.090

Michael Ryan: Kevin.

702

01:40:27.450 --> 01:40:30.810

Michael Ryan: Yes, Kevin can I can I just ask one question.

703

01:40:31.170 --> 01:40:33.180

SWRS: Here, if there was some sort of.

704

01:40:35.640 --> 01:40:36.690

Michael Ryan: defect and by.

705

01:40:38.970 --> 01:40:48.540

Michael Ryan: ology and all of a sudden, they all move to have the county pay for all that would be a decision to the county to make in this language wouldn't pre post one way.

706

01:40:50.220 --> 01:40:50.790

or the other.

707

01:40:52.140 --> 01:41:06.000

SWRS: you're breaking up a little bit, but if I understood what you said is is is if somehow there was some settlement along the way they came up with different terms yeah that would that would supersede this language anyway.

708

01:41:07.110 --> 01:41:21.360

Michael Ryan: My point was if five people got elected to the county Commission who said that you know what we're just going to do it because, as Mayor tool, he said, the county taxes or fees whatever, Commissioner.

709

01:41:22.890 --> 01:41:33.150

Michael Ryan: decided to pay 100% this language doesn't presuppose it or preload that, on the other hand, it may be something different, I just don't see where we're we're running into risk of any.

710

01:41:36.780 --> 01:41:41.970

Greg Ross: Thank you i've got mayor Ryan you you crapped out at the very end, but i'm going to go to matt.

711

01:41:43.830 --> 01:41:55.530

Matthew Haber: Thank you, Mary Ross, this is a very logistical question i'm not really sure about the timing aspect of upon wind down so any objection to me killing those three words and ending it at the parties.

712

01:41:56.610 --> 01:42:10.230

Greg Ross: I think that was a concern that nathaniel had that we were going to do this at a later date, but let me just read will be paid among the parties period Jamie you have any problem with that Mike any problem with that, because I don't.

713

01:42:10.740 --> 01:42:21.240

Jamie Cole: Well, the only concern I have is if it's not an online down That means it could be that the cities are now taking on an obligation that goes on forever um.

714

01:42:22.170 --> 01:42:31.320

Jamie Cole: You know I still feel pretty strongly that we should have the parents that are quiet, I sent in the chat the parent article because, as we stand right now I think there's.

715

01:42:32.190 --> 01:42:42.810

Jamie Cole: disagreement as to what among the parties means, and I think it's going to be problematic as far as the upon wind down, I think you know I think that's an issue that that.

716

01:42:43.260 --> 01:42:51.030

Jamie Cole: I don't object that much i'm taking it out, because I think it can be dealt with as part of the discussions, when we do the master plan as to.

717

01:42:51.570 --> 01:43:01.320

Jamie Cole: Whether the payments have to me right away or over time so that doesn't really bother me, although I think we would not we would want it to say that, but I don't think it matters in the La.

718

01:43:01.680 --> 01:43:09.240

Jamie Cole: But the among the parties language I still think is based on what everyone is now said it's clearly ambiguous.

719

01:43:10.320 --> 01:43:21.810

Greg Ross: I agree with you gave me, I think it is ambiguous and candidly I think it may be beneficial to both parties that it's ambiguous, because we can both claim.

720

01:43:22.500 --> 01:43:33.390

Greg Ross: This is what we meant, this is what we meant well there was not a meeting of the minds, but the beautiful part is the meeting of the minds is to take place at a later date.

721

01:43:33.840 --> 01:43:46.950

Jamie Cole: Except mayor, the problem is this agreement has to be approved up front, and there I can guarantee you there's gonna be some city attorney and so we're going to see among the parties and they're going to say by agreeing to that.

722

01:43:47.580 --> 01:43:58.530

Jamie Cole: The county is going to say it means this and we're basically agreeing that we're taking on a financial obligation and i'm worried that cities are not going to agree to that, I mean, I think we should be clear, I don't think we should never drive.

723

01:43:58.830 --> 01:44:01.020

Michael Ryan: You we're not going to get clearer, though.

724

01:44:01.740 --> 01:44:01.950

Greg Ross: well.

725

01:44:01.980 --> 01:44:02.550

we're not.

726

01:44:04.110 --> 01:44:07.530

Michael Ryan: we're not going to get clear they're not going to go with Jamie what you're saying so.

727

01:44:07.770 --> 01:44:10.980

Michael Ryan: that's a non starter I don't need to get angry, but we've wasted an hour and a half, on.

728

01:44:10.980 --> 01:44:12.780

Michael Ryan: Life it's not going to happen, so let me say this.

729

01:44:13.020 --> 01:44:17.250

Michael Ryan: it's ambiguous because it's not saying what right we're going.

730

01:44:18.360 --> 01:44:18.720

Michael Ryan: To do.

731

01:44:18.750 --> 01:44:20.310

Michael Ryan: It saying we're going to decide it.

732

01:44:20.340 --> 01:44:28.560

Michael Ryan: Later, how it will be paid it's not a fatal ambiguity it's great, and if you want presuppose it and say we refuse.

733

01:44:29.700 --> 01:44:30.840

Michael Ryan: To be in a position to.

734

01:44:32.520 --> 01:44:38.010

Michael Ryan: Say that we're ever going to negotiate that it at 100% are the cities of this.

735

01:44:39.360 --> 01:44:50.580

Greg Ross: Mike Unfortunately you keep breaking up, but what i'm going to do now is just ask and i'm not asking for a vote i'm just asking for a consensus of the voting members.

736

01:44:51.090 --> 01:45:10.410

Greg Ross: If you feel comfortable moving forward with this language as it stands right now and to be placed into the IRA, so that we can get the draft document or Lou i'll go ahead and ask that you go straight down the Members.

737

01:45:13.170 --> 01:45:13.680

Mary Lou Tighe: Ross.

738

01:45:13.980 --> 01:45:14.700

Yes.

739

01:45:17.580 --> 01:45:18.630

Mary Lou Tighe: Commissioner truly.

740

01:45:21.300 --> 01:45:25.470

BTooley: Number one is jamie's Lang additional language that he put in the.

741

01:45:25.890 --> 01:45:27.120

Greg Ross: You know we're doing it.

742

01:45:27.210 --> 01:45:31.320

Greg Ross: we're doing it as it stands, will be paid among the parties.

743

01:45:31.830 --> 01:45:32.520

BTooley: Okay, then.

744

01:45:33.990 --> 01:45:34.590

BTooley: I say no.

745

01:45:36.090 --> 01:45:37.110

Mary Lou Tighe: mission glassman.

746

01:45:37.530 --> 01:45:38.040

know.

747

01:45:39.300 --> 01:45:40.260

Mary Lou Tighe: Commissioner good.

748

01:45:47.280 --> 01:45:51.870

Greg Ross: Regina good sent a text saying he was getting very poor reception and could not hear.

749

01:45:54.660 --> 01:45:55.410

Greg Ross: Will bypass.

750

01:45:57.030 --> 01:45:57.570

Mary Lou Tighe: Ryan.

751

01:46:00.720 --> 01:46:01.320

Michael Ryan: Yes.

752

01:46:02.940 --> 01:46:04.020

Mary Lou Tighe: Commissioner medicine.

753

01:46:07.620 --> 01:46:08.190

Bob Mayersohn: Now.

754

01:46:09.630 --> 01:46:10.020

Mary Lou Tighe: Commissioner.

755

01:46:12.480 --> 01:46:12.930

Sabrina Javellana: Yes.

756

01:46:16.920 --> 01:46:17.820

Mary Lou Tighe: At a time vote.

757

01:46:21.570 --> 01:46:22.020

Greg Ross: Okay.

758

01:46:23.520 --> 01:46:32.430

Greg Ross: Can you matt for my purposes include what Jamie had put in the chat box.

759

01:46:39.660 --> 01:46:40.890

Matthew Haber: i'm working to.

760

01:46:40.920 --> 01:46:43.230

Greg Ross: Get I know I know Take your time but hurry up.

761

01:46:49.980 --> 01:46:51.030

Matthew Haber: And this goes where.

762

01:46:51.120 --> 01:46:52.380

Matthew Haber: And claws.

763

01:46:53.460 --> 01:46:57.660

Greg Ross: Actually, will be paid among the parties right right there.

764

01:47:08.250 --> 01:47:20.610

Greg Ross: Okay, thank you, I appreciate that do I have a consensus and Mary hello, I asked you to go down again to have a consensus of including the language as it now stands at.

765

01:47:20.610 --> 01:47:22.170

Matthew Haber: matt put in what.

766

01:47:22.380 --> 01:47:23.790

Greg Ross: Jamie had requested.

767

01:47:29.190 --> 01:47:30.150

Greg Ross: Yes.

768

01:47:33.060 --> 01:47:34.020

Mary Lou Tighe: Commissioner truly.

769

01:47:34.620 --> 01:47:37.050

BTooley: I just want to make sure it includes jamie's.

770

01:47:37.560 --> 01:47:39.000

Greg Ross: Yes, that's what we're going on.

771

01:47:39.060 --> 01:47:39.990

BTooley: Then, although yes.

772

01:47:41.310 --> 01:47:42.330

Mary Lou Tighe: Commissioner glassman.

773

01:47:42.600 --> 01:47:43.380

Yes.

774

01:47:46.560 --> 01:47:50.730

Mary Lou Tighe: Commissioner good still hasn't come back mayor Ryan.

775

01:47:51.390 --> 01:47:51.960

Yes.

776

01:47:53.670 --> 01:47:55.800

Bob Mayersohn: Commissioner medicine, yes.

777

01:47:56.550 --> 01:47:56.970

Commissioner.

778

01:47:58.710 --> 01:47:59.130

Sabrina Javellana: Yes.

779

01:48:01.740 --> 01:48:03.450

Mary Lou Tighe: You have yeah the consensus voter approval.

780

01:48:03.960 --> 01:48:13.020

Greg Ross: I thank you very much, and let me just say God, this was a great discussion in a great meeting awkward as it was tough, as it was.

781

01:48:13.320 --> 01:48:27.030

Greg Ross: we're we have something now that we can move forward, I will directly address the county attorney's because beam is not here, and just say thank you for what you brought forth.

782

01:48:27.810 --> 01:48:47.130

Greg Ross: From that we have something to work with will get further discussion on it, I am sure, but it's not as if we totally discounted what you were saying, but it's in there let's move forward and work together, because that is exactly what we want to do.

783

01:48:47.940 --> 01:48:50.130

Mary Lou Tighe: is just share Matthew hey bro has his hand raised.

784

01:48:50.400 --> 01:48:51.660

Greg Ross: Oh Okay, yes Matthew.

785

01:48:52.290 --> 01:48:57.510

Matthew Haber: uh no just very much in that same spirit, wanted to give the fyi to everyone that.

786

01:48:58.200 --> 01:49:11.430

Matthew Haber: The lawyers are going to be doing a cleanup read of the document to make sure that everything is internally consistent, so that we can you know do that work and once we distribute something, it will be something good and clean for you to say.

787

01:49:11.670 --> 01:49:16.410

Greg Ross: Wonderful I love hearing that Thank you and that will be done by tomorrow right.

788

01:49:17.250 --> 01:49:17.970

Matthew Haber: Absolutely not.

789

01:49:20.400 --> 01:49:29.340

Greg Ross: Okay let's move on to the waste generation study Kevin Keller, do we have an update and I know we have Stacy and Vito on as well.

790

01:49:30.930 --> 01:49:38.940

SWRS: i'm just gonna defer to Stacey and data I think Stacy let you know what the update is in the three minutes we have left.

791

01:49:39.210 --> 01:49:54.600

Stacey Demers: Yes, thank you Kevin, I just wanted to let everyone know we've been working with for haulers waste pro, as you know, has signed our agreement or in the process of ordering their truck scales and organizing that time when they can be installed.

792

01:49:55.620 --> 01:50:04.920

Stacey Demers: we've had very good relationship with coastal we have a verbal we've worked out some things and I believe kosta will be sending their agreement today or tomorrow.

793

01:50:05.880 --> 01:50:17.160

Stacey Demers: We have had some good conversation with oakland Park, so I feel like we're very close to an agreement with them and then waste management, let us know just this week that they would

entertain.

794

01:50:18.420 --> 01:50:32.250

Stacey Demers: Participation in the study, so we have some back and forth going on with our agreement if we can reach an agreement, and we will include them, but, as you know time is of the essence, so we're trying to move that along as quickly as possible.

795

01:50:33.180 --> 01:50:38.460

SWRS: If I could just add to that you know waste bro come at the last and not waste waste matter come at the last minute.

796

01:50:38.910 --> 01:50:48.600

SWRS: You know, obviously we you know time is of the essence, we need to get this thing going and we can't lock that up in short fashion, will probably have to go forward without them.

797

01:50:49.410 --> 01:50:59.130

SWRS: But because we just heard back from them, two days ago, that was the first time that they indicated and gave a indication that they were going to participate, and I think it's only for limited cities and.

798

01:51:00.960 --> 01:51:05.910

Greg Ross: aren't very good, I appreciate that and Kevin whatever you can do to speed that up.

799

01:51:07.260 --> 01:51:08.880

Greg Ross: That would be appreciated.

800

01:51:10.170 --> 01:51:13.740

Greg Ross: Any questions of Stacey or of Kevin.

801

01:51:15.330 --> 01:51:21.180

Greg Ross: or hearing none then i'll move to the public comment, do we have any one on public comment.

802

01:51:27.300 --> 01:51:28.860

Greg Ross: I don't see any raise hands.

803

01:51:28.860 --> 01:51:33.510

Mary Lou Tighe: But I don't see any hands raised and there's nothing in the chat.

804

01:51:34.350 --> 01:51:52.350

Greg Ross: wow then i've got seven minutes that were early, so I want to say take that and go have a cup of coffee what a great meeting this was, and I thank you all for your efforts, I really do Having said that, just have a great Wednesday day.

805

01:51:53.850 --> 01:51:55.260

Commissioner Steven Glassman: Happy July 4.

806

01:51:55.890 --> 01:51:56.700

Greg Ross: And the same.
